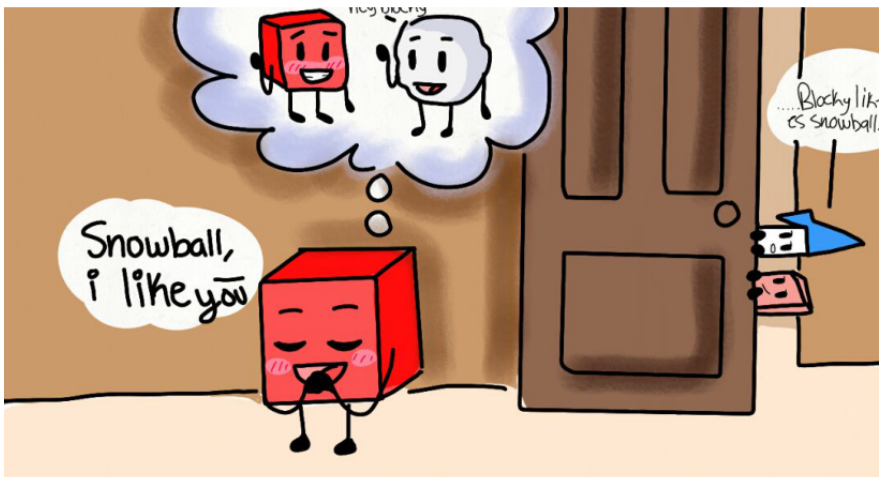
Part 1

Pen's POV
It's was the last day of high school and I was excited because I can do whatever I want for the rest of my life, I walked in science class and sat down in our signed spots I had to sit next to the love birds that keep flirting to each other and what they say creeps me out, a lot. Our teacher walks in and sits down looking pissed off. "I don't care it's the last day sit wherever you want but before you do turn in your science projects." Then she passed out everyone did what was asked and I sat next to my friends Eraser, Blocky, and Snowball. "Hey Pen." Eraser said as he was throwing paper at the love birds. "Stop you assholes." Pencil yelled slamming she desk, Match agreed and then she continued making out with Pencil.
"Is this what we are going to do all day?" Tennis ball asked Golf ball he shrugged, I looked at my drawing book and I turned to a new page and started to draw because I promised Paintbrush a drawing and I would finished before we leave. "What are you drawing?" Eraser asked putting his arm around me, I blushed and I stopped and looked at him. "I'm drawing something that I promised to draw for someone." Eraser nodded like he understood and I keep drawing and then the bell ranged Eraser took his arm off and putted it to his side, I had somehow finished the drawing so in the hall way I walked to Paintbrush, she turned around she knew that I was there. "You finished?" I nodded and I gave her the drawing and she looked like she was amazed by it. "Thanks this the best drawing I have ever seen, your good." She gave me a thumbs-up, I smiled and walked off. At 2:30 Eraser came up to me and put his arm around my shoulder again, I still blushed. "Hey Pen how about you come over to my house for a sleepover?" I nodded in excitement. "Nice, could we walk there together?" Eraser took his arm off and folded his arms, he does that a lot. I still nodded and then Blocky and Snowball ran to us. "Hey don't forget us in this hell hole!" Blocky joked, We all agreed, when we got to Snowballs house he walked to the door then he turned around. "Bye I have to go to my shitty parents house." We all

waved, Blocky waved longer and even told him good bye as well. "You ok?" I questioned, Blocky blushed bright pink. "I'm fine, why ask." I shrugged, Blocky put an eyebrow up but he stopped and then we were and Erasers house. "Wait are you staying the night to?" I questioned. "No I'm just staying here for a little bit." He replied, we got inside and no one was in the house, and the first thing Blocky did was run to the basement, I was started to get suspicious about Blocky so I followed him trying to make no noise, then I turned around and I see Eraser following me. "Why-." I tried to say but Eraser put his finger on my lips and I started to get red. "I'm following you because I'm asking the same question as you are."
He whispers, and he puts his hand to his side and I turned around and keep walking slowly and when we got there we didn't see him, Eraser walked to the door that was closed and opened it slowly and quietly and I walked and then we both peek though, Blocky was holding a picture of Snowball and then he walks to a table that was in the room put sat the paper on it at walked backwards to the spot that he was at. "Snowball, I like you..." Then I whisper to Eraser. "Blocky likes Snowball." Eraser grins at Blocky.



And then he whispers back. "Well I can't believe it but the person that was a stone hearted is actually in love." I nodded, bad news but Blocky turned around and then his eyes widen when he saw us and he was now blushing in embarrassment. "Fuck you were not supposed to hear that..." I was the first one to move into the room at then I hugged him. "It's fine we will support you all the way." I smiled and then I let go I walked and grabbed the picture of Snowball and gave

it to him. "Why did you do this in my house?" Eraser questioned Blocky. "It's has a basement and my parents can hear anything that I say wherever I'm at."
Eraser rolled his eyes but he still believed him. Two hours later Blocky left and it was just me and Eraser, he slapped my arm and I turned around. "Ok what was that about?" "I was going to ask you if you want to watch a movie?" I nodded and then he puts in the movie and we both fell asleep during it, the next day when I woke up I looked down and Eraser was on my lap, I blushed madly as I was going though my mind. *I have been gay for my whole life and I think that I'm falling in love with my best friend... What am I thinking he's your friend and if you confess he probably going to reject you or worse be like Snowball and be all homophobic about it.* I was getting more confused but before I can think of anything else Eraser woke up.
Eraser's POV
I woke up to see Pen staring at me and that I was on his lap I blushed and got up and moved off of him and sat next to him. "Sorry-." "Don't have to apologize for that, that usually happens." I interrupted him. "Oh." I noticed that Pen was acting different than usual but I didn't questioned about it to much. "Well I have to go bye." He said very fast and raced to the door opened it and shut it very loudly. *Damn that fucking loud he was probably late for something but he was red when I looked at him... Does he like me? It could be a possibility, but he is my best friend though... Or maybe I made him embarrassed. I don't know but I might leave it as a mystery...*

I hope you liked it and thank you *yoonminisreal721* **for drawing that picture for me your the best and *I hope everyone has a good day***

Part 2

Pen's POV
Today is the day that I'm going to come out, but I'm going to tell my half brother Emo first because hes my brother, and then Eraser... I'm heading to my house then I get a call from Baseball. *Why would he be calling me...* I questioned myself but I answered it. "Hello?" "Pen, I need your help now!" He yelled and it felt like he just bloodshot my ears. "You don't have to yell so loud, and what is it?" "Nickel is back..." I stopped and started to shake violently because hes been gone for five years at least. "Are you joking.." "No hes back and I don't know what to do." Baseball sounded like he was freaking out terribly. "Clam down a little bit, and still are you fucking serious!" "DO YOU THINK THAT IM JOKING." "NOW YOU NEED TO STOP YELLING YOU BITCH!" I yelled and a couple of people were staring at me eyes widened, but I'm usually an asshole so I ended the call and continued walking. I got to the house and opened the door and Emo was watching 'Cannibal Holocaust.' And it has been said that it's the top ten most violent movies of all time. "Hey can we talk after your done with your movie?" All he did was put a thumbs up, so I walk to my old room and I brought my notebook that I draw in so I drew in it while I was waiting for my brother. An hour later Emo walks in and I quickly put my stuff away. "Hey pen." He sat down on my bed looking at me with worry in his eyes. I was getting nervous at this point because Emo's life is very questionable, he is obsessed with black and blood and he isn't a party Animal hes more the person who stays at home all day trying to summon satan or something strange or will be watching bad movies or anime like example Genocyber is his favorite. And he hates girls that wear makeup even if it was black or even for a Halloween costume he will unfriend you so fast it wouldn't be funny. "Pen?" I jumped and looked at him. "Sorry I was spacing out." Then I stood up and walked to Emo but made sure that didn't get to close to him because he doesn't like people getting close to him. "I'm-." I hesitated. "Your what, are you nervous?" He stood up and I nodded. *Just tell him hes your brother, well your half brother.* "I

will tell you but I get nervous when I tell people stuff.. Ok I'm gay..." I said breathing violently thinking that he would get mad at me or something but instead he walked to me and hugged me, I hugged back. "Its totally ok bro, just be careful about who you tell it to, just don't tell dad right away got that." As he was saying that his voice got deeper. I nodded and let go and ran out of the house. An hour later I ran into Blocky on the way and he asked me if he could talk to me alone at his house because his parents left him and gave him the house, I nodded and followed him. When we got to the house he had a room that was completely white and it had nothing in it so he brought me into the room and we start talking. Its been an hour later and we ate just standing there and I don't know why but I keep thinking of Eraser and I keep getting redder and redder the more I think of him. "Why are you blushing?" I'm just confused about what I'm thinking of anymore and I blurt out something that I regretted after I said that. "I'm gay and I have a crush on Eraser!" I cover my mouth with both of my hands and blushed in embarrassment. "Your gay?" He said having his evil smile.

I nodded, and he shrugged. "Why are you so worried about that! You know that I'm gay for Snowball." "I know that but I don't know about confessing to Eraser though that I'm gay and, you know telling him that I like him... What is he going to say?" I questioned. "One he might be ok or be very supportive that you are gay or two he might be like Snowball but I highly doubt that, but it is a possibility." I nodded agreeing with him. "I hope not but I'm thinking that I should tell him that I'm gay today but wait for a while before telling him that I like him." Blocky agreed and told me to tell him so I ran to his house and knocked and his brother answered. "Oh hey Pen, let me think you want to see Eraser?" I nodded and he let me inside and I walked to Erasers room. *I'm scared in some ways but I don't know how to say it. Whatever I'm going to say it like I did to Emo.* I went inside of his room and he was just sitting there playing with his phone and then he looked at me. "Yes Pen?" He sat up straight and then I walked to him and sat next to him. "Ok I'm not going to hesitate this time, but I'm gay..." I said straight forward. Erasers eyes widened and he just stood still for a while... *What is he thinking of?"* I questioned thinking the worst then he smiled. "Its fine Pen, I'm gay as well, but don't tell anyone." I nodded thinking that today is the luckiest day in the world. Other than our friendship. Then we hangout for hours and

then it was 9:00 PM. "Oh shit I have to go bye Eraser." I hugged him before leaving, on the way I get another call from Baseball. *Again.*. I thought, but I still answered it. "What now?" "Nickel just said that he likes me what should I say?!" "Excuse me what!" I sound like it wa Eraser that confessed to my on the phone for some reason, but he just in my head. "If you like him back tell him that, if you don't just tell him that you don't like him ok." Then he just hanged up out of nowhere. *Ok...* But I shrugged and then I got to the house and Emo was sitting there at the front porch. "So how did it go?" "It went good actually he accepted it and he told me that he was, you know." He nodded slowly. "Really! Well in like a month maybe ask him to go somewhere, maybe the park. And then after awhile confess to him and see how he reacts." *Why is he helping me? He never does this and he usually never goes outside in the morning especially in the afternoon?* "Ok why are you helping me?" I questioned, squinting at him. "I just want to help ok." "Why?" I was demanding an answer from him now. "I just want you-. Never mind asshole." And then he just walked into the house. *I should of never did that.* I thought in regret.. I walk in the house as well and Emo was now watching 'I Spit on Your Grave.' "Why-." "What's it to you." "Bro, I'm sorry, it just you usually never help me with anything." "Its because your the only brother that I know that is not dead." "I know that but you don't know if they are dead." He paused the show and stood up, walking towards me and nods starting to look blue but he keep a straight face. "Thanks for your help and sorry you yelling at you." "Its fine just I just have a personality like Jekyll and Hyde sometimes." I nodded and I ran to my room and lied on my bed... *I need to confess sooner or later but Emo gave me an idea...*

Part 3

Pen's POV
Three months later I finally got the courage to do what my brother said to do, so I asked Eraser to meet me at the park he agreed and I got ready and had everything I had to say to him in my head. And I got into the woods and I waited thirty minutes before he came out of nowhere from a tree and hugged me, I flinched and then I looked at him. "Hey bro." I*f he thinks that I just like him as a bro, then prepare to get mixed feelings I guess...* I thought, so we hanged out for several hours and during the hours we got lunch, then he took one of my fries out of my hand and ate it and it made me blush. Then Blocky and Snowball came to the park as well and we played truth or dare and would you rather and one of them made me lie so they didn't know other than Blocky already knew. "Ok Pen is it true that you have a crush on a guy?" Eraser asked me, I shook my head no. And I don't want Eraser finding out yet and also that Snowball is homophobic and he might hate me because of that. After Blocky and Snowball left to get something I was thinking. *It's now or never Pen just tell him...* "Eraser?" I sounded upset and I stood up, Eraser did the same and looked at me sternly. "What's is it Pen did someone hurt you because I can hear it in your voice?" He started to sound concerned. "It's not that it's what I'm going to tell you..." Eraser put an eyebrow up but he stopped after awhile, and then Eraser started smiling for some reason...
Eraser's POV
I started smiling because I knew that Pen was going to confess to me, He starts to and I just stand there looking like the world stopped cause I wasn't moving at all. "And I like you..." Pen finally finishes and we just stand there for a moment and then I grab Pen and kissed him, he blushed and had his eyes widened. But then I saw Blocky with his phone out but I didn't care. "Love birds kissing under a tree." Blocky yelled forgetting his grammar, meanwhile the kiss was passionate and Pen was kissing back making me surprised. We kissed for a couple of minutes before we broke the kiss staring at each other.

"I've loved you as a friend in the past but now I realized... I like you as a crush or boyfriend like... Would you be my boyfriend Pen?" I asked him and he quickly nodded with a big smile on his face making me smile as well.
Blocky's POV I looked at those love birds and I started to get a little upset cause they're together and I'm going to be single forever because I know that Snowball is homophobic and he would never date me. I walk home.. Alone as usual, I was going through things that were in my head. *Now Eraser and Pen are together now, will they forget me and go on tons of dates and... **Do the act?!?!** And about Snowball I like him and pretty much everyone can tell but don't speak about it other than I know that Eraser and Pen know for sure. But I know that Snowball is homophobic so this will be a bust even if is single but he is so... Yeah, now I'm just saying things... Oh shit there's Snowball now act normal, just pretend that hes your shit ex girlfriend Flower.* I get super nervous as I stare at his eyes, I blush a real heavy pink. As I pass him. "Oh hey Blocky, why are you so, pink?" *Well shit...* I thought as I slowly turn towards him, still pink in the face. "I-I fell in front of someone famous and they laughed at me.." *Well I'm not lying because that did happen... Three hours ago.* "Oh, that's sad let me give you a hug." He smiled and wrapped his hands around me making me blush heavily once more. He let go of me after several seconds of. *Heaven...*
Snowball's POV
I stared at Blocky and hes still red in the face, trying to walk away from this conversation, making me suspicious. "Hey, I know that like happened like three hours ago so don't lie to me, I'm your best friend you can tell me anything." I moved my hand to his back and rubbed it slowly, I saw his face turned into like a hot pink. *The worst pink in history but in my opinion its looks good on him...* I commented in my head, then all of a sudden he starts to tear up then he ran. *Probably ran home, I need to talk to him and what can be so bad that hes crying over it... Did someone abused him, not likely but possible.* I waited for a couple of minutes so he doesn't know I'm following him then I start to run like hell. About forty minutes later I was breathing heavily feeling like I was about to melt and was about to give up until I saw his house. *Thank fucking god I'm tried...* I felt like my leg were about to fall off and go their own way. But I would be losing my legs for Blocky. I walked to his house and knocked on the door, no answer. *Figured that.* I opened the door and walked into his house, it was dead silent. "Blocky." I yelled still silent, then all of a sudden I hear the

quietest whimper that I have ever heard. I followed the anguish sounds, the noises ended me up being in his basement. I walked around the basement for a while making my knees ache then I finally found him. "Snowball?" He stood up, turned around and met my eyes. "The reason that I act so weird or strange towards you is because I like you!" He admitted, making me blush lightly, *what did he mean by that? 'I like you like a friend,' or it could be 'I had a crush on you.'* "What do you mean by 'I like yo-." Blocky covered my mouth and I raised and eyebrow. "Like a crush and I have liked you for years and its obvious that I do and I know that your homophobic so that's why I didn't tell you sooner." He admitted, I grabbed his hand and moved it to my shoulder. "What are you doing?" I stared at his eyes, I blush a touch more and he raised an eyebrow. "Well, I say that I'm one because my parents are and they're very religious and homophobic. And that's why I say that because I don't want to upset them and I actually do like you in the same way." I confessed, Blocky smiled, I moved my hand to his cheek and with one finger I wiped again his tears. "You really do..." I moved towards his face and pressed my lips against him, his eyes darted at me, he kissed back like I figured he would. We sat there on the ground staring at each other still having our lips touching. Then all of a sudden we heard footsteps, then it was dead silent then it would start up again, we broke the kiss and stood up and we tried running out of the basement but we were stopped by someone that I didnt know but Blocky did. "Oh hey dad." He sounded normal so he didn't suspect anything but he shook his head. "What were you two doing?" He asked and Blocky was getting slightly nervous while I was confident. "Well, he came down here crying because someone made fun of him and it was someone famous and it was on TV and I ran after him down here and I calmed him down." For a second he looked convinced, until he looked on his phone. Ten minutes went by and his eyes widened and stared at us. *Oh shit...* "You know that I have security cameras in the basement right, Blocky?" I looked at him, his head was down thinking then he looked up, eyes widened and gave me a 'sorry I forgot about that' look. "I don't care if you guys are together just don't lie about it and wait are you the homophobic that Blocky was talking about?" I looked at him and he slowly nodded. "Yeah but is because my parents are and I don't want to upset them. And did you know that he liked me?" I questioned him, he nodded I was surprised that they knew about that. "What how?" He questioned his father, he quietly

snickered and tried to keep a straight face but couldn't. "Oh your teachers have been questioning because the way you act towards him. Me and your mom thought the obvious and we accept you. Just don't be loud at night if you want to, tell us to get out of the house." We both blushed heavily and looked at each other then back at him. "Well do, probably every night I'll call him to get you two out of the house." I laughed as Blocky covered his face in embarrassment. "I was joking." He moved his hands to his sides as his dad shook his head, he also laughed.

Blocky's POV

"Oh by the way can you guys leave us alone tonight?" I questioned, I looked over to Snowball and I saw his lustful eyes looking at me with a smile with lust as well. "Ok, and you guys just got together? Well your just like your parents, us then nine mouths later you were born." Three hours later my parents have left, and it was just me and Snowball. I walked to my room and he followed, I opened my door and he ran just before I shut it. "Really." He laughed then stopped when we were in my room. I sat on my bed, he sat next to me and gave me a lustful look. "You wanna do it now?" I questioned he grabbed me and pinned me on my back on my bed and he whispered. "I'm hard so, don't tell anyone about what I'm about to do to your body." I nodded and I pressed my lips against his...

Part 4

Trophy's POV
The day after the last day of high school. *FINALLY!!!* I said to myself for eighteen hours straight. I walked home and then went to my room, I shut the door and locked it behind me. I walked to my drawer and I saw a letter with my name on it. *Weird...* I said to myself I picked it up and closed my drawer. I walked to my bed and turned it around and the sticker that was on the back was a heart, I opened it and took the letter out I opened it and it said:
Dear Trophy,
I have been your friend for a while and also an enemy. Our friendship was like a broken relationship and now it's like any normal friendship. Another than I have started to feel something for you and I can't deny them anymore... I LOVE YOU!!!! For a few years now and I can't stop thinking about you and there would never be a time that I wasn't thinking about you. People make me feel like a nobody while you, make me feel like a somebody. You are the other half of my heart and you complete me :).
Love, Knife... Didn't expect it to be me

I froze after seeing Knife's name on it, I looked over to my phone and grabbed it and I had Knife on speed dial, I pressed on his name and I put him on speaker. "Hello?" He said in his usual raspy voice meanwhile I was getting nervous. "Hey did you put a note in my drawer?" I questioned him, there was a silence for a while then he yelled, "BALLOON FOUND MY NOTE PUT IT IN YOUR DRAWER, OH SHIT..." I could tell that he was embarrassed, I blushed lightly as I can hear him pacing around, probably in his room, I didn't know what to say at that point, so I stayed silent. "Sorry for yelling it's just I can't believe that-that asshole would do such a thing!" He sounded calmer but still sounded outraged, I stayed silent and I could tell that he was going to question about it. "Hey I understand dude, you don't know what to say because, you know we are the same sex and some or maybe alot of people that don't accept that like Snowball's parents

but its doesn't mean that we can't gave it a chance. Keep it a secret as well? If you feel the same way." He said, defeated. "Wait don't hang up!" He sighed then he pressed the bottom that said 'video chat' and I accepted the request then it showed his face and it looked like he was tearing up. "Hey, have you been crying?" I questioned and he nodded looking upset, staring at me and I could see his beautiful red blush that was across his face. "Your blush is cute..." He looked up surprised and smiled. "Really! I like the way your smiling at me.." "But I have to confess something, I feel the same way about you but I don't know if I'm ready to be in a relationship with a guy... Yet." I admitted, I looked at Knife and he nodded understanding me. "Well tell me when your ready to." I blushed lightly at him.

Knife's POV

I looked at him and he started to breathe heavily and started in tear up. "Something wrong?" "I'm fine- Chest pain-, jaw and neck pain-, and I'm feeling light-headed-." He was about to finish but then he fell off of his chair and fell onto the floor with a loud thump. "TROPHY!!!" I screamed as I ended the call and ran out of my house and got into my stepdads car and driven it to Trophy's house but he wasn't far from my house. I ran inside and went passed his stepmom and she commented. "Wow, hes like sonic other than I didnt like the trailer and I have heard that there fixing it so, hope not as disappointing as that first trailer." She made no sense but shes buzzed, I could tell. I got to his room and he was on the floor, I called the emergency department and I started doing CPR until they got there and they took over... I went to the hospital in the Ambulance, I was holding his hand and started to tear up. When we got there I immediately ran out of it and followed then into the hospital, one of the nurses stopped me and told me to sit in the waiting room. I was upset that I couldn't go with my crush to see if he was going to... make it. Thinking of that made me tear up. Seven hours later I decided to take a nap then I was woken up by three different nurses, I looked at them and they looked worried. *NO HE DID NOT!* I said to myself then one sat next to me and I looked at her. "We have good news and bad news, the good news is that hes alive and the bad news is that he had a heart attack and it was caused by drugs such as Marijuana, alcohol, and other drugs..." I was shocked and felt sick to the stomach hearing that my crush was addicted to drugs... "But could I see him." They nodded and showed me where he was at.

Trophy's POV

I fell down and feel unconscious and the last thing I heard was a loud thump.
Then the next I know is that I woke up in the hospital and I turned my head to the left and Knife was staring at me our eyes met and he was crying. "Why?." He keep repeating as he slowly got on his knees and covered his eyes and started balling violently. "Knife! What happened?" I said in a raspy voice, He looked at me and continued crying but stood up and hugged me, he kissed my cheek and I lightly blushed then I peck him on the lips and then he was flushed for about twenty seconds. "Do you know why you're here?" He questioned me as he was keep tearing up. *Wait does he know...?!* I questioned myself as I looked at him. "You had a heart attack and it was because you did over the legal amount of, drugs." He started crying loudly as I got out of my bed and hugged him, he hugged me back and I started to tear up as well. "I'm sorry I got addicted to it and I couldn't stop even if I tried to..." I admitted and I started rubbing his back, he gave me a half smile. Two days later I got discharged and when I got out of the hospital the first thing I saw was Knife, he ran to me and he pressed his lips against mine with tears in his eyes but they were tears of happiness. He broke the kiss and stared at me and chuckled awkwardly. "Sorry I'm just so happy your still alive and I know your not ready to be in a relationship yet but you know I'm still trying to get over Microphone as well and I-." I put my finger on his lips and I whispered. "Shhhhh I'm ready for one, unless your still getting over her." He shrugged then I picked him up and he heavily blushed then took him to his car.

Part 5

Oj's POV
Today is the day of my party and I invited everyone, except for Toilet, and Tissue Box they will ruin the party with their disgusting... MANNERS!! And I know what your going to say, *I thought you hated Balloon?!* I did but I compromise with him and he has to be watched by IPad if he wants to go. I've been waiting until I could throw a party and that everyone could come and I mean **Everyone!** And it took forever to be able to get everyone to go, I mean seven months isn't long to set up a party right and it ain't even a wedding ceremony?! My best friend Paper helped me set up everything and I mean it and of course Shampoo cleaned everything it helped. "Well I thought I would never say this but thank you." I smiled and she gave me a thumbs up then continued washing the dishes. Four hours went by and almost everyone was there other than Snowball and Blocky are running late for some reason... Pen and Eraser as well but those two are usually late or maybe there picking the other two up or maybe alot of traffic of where they live.
Pen's POV
"Those two are going to make us really late if they keep us waiting." Eraser said as I was questioning on what they were doing. *Oh my god are they doing it?? That will surprise me if they are?!* I thought and I figured that Eraser was thinking the same thing. "How about we go inside and see what's taking them so long." Eraser moved both of his eyebrows three times and I chuckled. We went into the house and just stood there then all of a sudden we hear. "DADDY!!! HARDER!!!." We looked at each other, eyes widened. "Oh my fucking god..." Eraser mumbled as I started to walk to Blocky's room and he followed, we got to his room and I opened the door without knocking and it was what we thought. They stopped and looked at us, mortified but they were under some blankets so Eraser didn't get too grossed out. "Ummm, I can explain." Blocky stuttered as Snowball got off of him completely red in the face. "Why did you call him daddy?" I questioned as they were quiet. "Don't ask please." Blocky said as

Eraser looked at me and moved his hand to my face and I opened my wallet and pulled out a fifty and gave him it and he put it in his wallet. "You were in a bet?!" Blocky said still a hot pink in his face. "Yeah but it wasn't for...This... it was for you two were in a relationship because Mr.Pink in the face was acting strange if we mentioned your boyfriend." Eraser said then he laughed, "You two need to get ready or your going to make Mr.Everyone needs to be at the party shut the party early." Ten minutes later they were ready, we went into the car and Eraser put the car in gear and we were going over the speed limit.

Firey's POV

I got to the party fairly early with my girlfriend Leafy and her best friend Pin with her boyfriend slash my arch nemesis Coiny I hated him being around me and he hates me back.

Two hours went by and I saw that Blocky and Snowball just got to the party even though they rode with Pen and Eraser and that they have already been here for forty minutes. I walked up to the two and the first I spotted was that they were red... And of course pink to the face. *Something's up...* I thought to myself. "Why were you guys in the car for so long you rode with Pen and Eraser correct?" Snowball nodded as Blocky was starting to look nervous, made me suspicious. "Hey, are you ok Blocky?" His eyes widened as Snowball put his hand on mine and whispered. "Me and Blocky are in a relationship and I don't want anyone else finding out ok especially my parents they would kill me." "Oh, the only relationship I knew about that was between the same sex other than Pencil and Match was Trophy and Knife." I whispered back and they were both surprised to hear about that and we looked over to Balloon and he nervously chuckled and ran and IPad followed him. "Must of found that note that Knife wrote about his confession to him." We looked behind us and saw Suitcase eavesdropping on our conversation. "Can you stop?" Snowball growled, Blocky rubbed his back to calm him down. "You know that this room can echo so everyone can hear-." "So you mean that everyone knows about, you know..." Blocky interrupted, embarrassed as Suitcase looked around and everyone was staring us with they're eyes widened. "Ask..." I looked around and spotted Pen's half brother texting probably to his dead mother from a fake texting app, *how about no.* Then I looked over to, Coiny... *I hate him but he is the closest to us.* "Maybe shit head over there." I pointed and him and he growled at me knowing that I was referring to him. "Bastard." He mumbled

loudly as he started walking towards us and stared and frowned at me, he stood next to Suitcase with his arms folded. "What Firey the asshole." I pointed at Snowball then the bronze coin that's still a virgin raised an eyebrow. "What about him?" Snowball moved closer to him slowly and put his hand on his shoulder and whispered in his ear and I couldn't hear him, so I can't tell you what he said. He walked back to Blocky and held his hand. "Yeah I heard but I thought it was a joke but Pin said that she was surprised that Trophy and Knife were together and she didn't hear you whispering to shit face over there." He gave me an evil smile and I walked up to him, pissed off. "Oh you want to challenge me or some shit??" He said in a goofy matter then I slapped him. "Oh shit." Puffball said was staring from the ceiling. "Well I'm calling you out pretty boy..." He said in a cocky tone, and I squinted my eyes at him as he threw a fist at me and I grabbed his arm and threw him backwards and slammed crashing into Knife, they fell down the first time in my life he teared up a bit but quited after Trophy picked him up bridal style then put him down then grabbed Coiny by the throat. "If you fucking touch or hurt him I will kill you this the first and the last warning... **GOT THAT!**" He said firmly and let him go, Coiny coughed up some blood, something he must of had a tight grip on him that made him do that. "Good job fuck face now I'm on Trophy's bad side thanks to you..." I flipped him off and he growled, in a weird way... *The hell?!* I told myself as everyone left the circle expect Coiny. "Coiny what's with you..." I walked to him and looked at his face and he looked like he was, crying I looked at his direction and I saw something that made me tear up and feel pain every time a tear feel on my firey body... Leafy was kissing Pin, we looked at each other and he couldn't help it but he screamed something at them that made my eyes widened. "Pin you mother fucking lesbian whore and your slut of a girlfriend you broke our hearts and I hate both of you and firey is crying in tears and it must hurt more than when I cry but we loved you, then you threw our love out the god damn window like we're like baseballs-." "HEY!" Baseball interrupted. "-Shut up! I'm done with you Pin you have cheated on me for the last time and same with you Leafy, we are over with you two lesbians!" I nodded and we walked away.

Coiny's POV (Sorry that his is short)

I sat at the mini version of Gelatin's Steak house and Firey follow I sat down and started balling violently. Few minutes went by then I felt someone's hand rub on my back I looked over and saw Firey, worried

but also trying to act disgusted because of course we are known to be enemies. "You ok?" He said as I slowly nodded feeling like I just lost someone because we loved each other very much and we have been dating for a decade and we did everything for each other than I never gave her my virginity, it's to precious to loose. "Hey, Firey how about we start over and be friends again..." I asked him and he was shock at first then half smiled. "Sure why not." I turned around and hugged him.

Leafy's POV

I looked and the two hugging and I look over to Pin. "Mission Accomplished." Her nodded and we fist bumped.

I hope you enjoyed and sorry that Coiny's and Leafys were short but have a good rest of your morning or night :)

Part 6

Emo's POV
I woke up near the mini Gelatin's Steakhouse on one of the bean bags then I looked around and saw Firey with about ten shots glasses next him and I was slightly surprised because he never drinks and also he is never a night person, he is in bed by Seven or Eight at night and wake up at Five or Six. "Emo?" I looked at him and he looked depressed I stood up and walked to a stool and sat next to him. "What's wrong?" I said emotionless as usual, he said nothing he just sat there shaking. "Leafy... Pin... I HATE THEM." He grabbed a shot glass and threw it to the ground and it shattered then fell off the stool onto the ground and just layed there sobbing on the floor. *He is gonna kill himself by the tears.* I thought to myself, then suddenly I felt someone's hand on my shoulder, I pulled out my knife and pointed at whoever's did that. "Dude calm down it's just me and I'm not gonna ask why you have a knife." It was just Gelatin I awkwardly put it away, as he tipy toed to look at Firey then stopped. "One he is gonna pay for that and two leave him alone you'll only make it worse." I jumped off the stool and kneed down and let out my hand. "Please get up before you burn the floor or kill yourself by all of those tears." He looked at me then grabbed my hand and we stood up we let go of even others hands, he looked at me with the most depressed look I have ever seen and I thought my half brother Pen was sad. "Why do you hate them, what did they do to you?" I questioned him as he folded his arms. "Leafy, cheated on me with Pin and the only good thing that happened is that Coiny and I talked and we are planning on meeting tomorrow afternoon." He gave me a half smile. "At least your feeling slightly better right?" He nodded slowly but then out of nowhere he tried to hug me. "Whoa I would burn me, maybe a high five instead." I stepped back and we high fives then just stared at me. "You ok?" He said as I heard my phone go off then nodded quicky. "Got to go anyway bye." I ran out of there then when I knew no one was around I opened my phone.

Pen's POV
It was 8 in the morning until Emo came back home. "Where have you been Bro?" I questioned him and I saw I slightly nervous look on his face but he said. "I passed out at Oj's remember." I squinted at him but couldn't question him so I smiled and walked over to him and hugged him. "Missed you." "I wasn't gone THAT long." He chuckled quietly and hugged me back then pushed me off then walked to the TV to put on a show called 'Blood-C'. Then I heard his phone go off and it was next to me so I was about to grab it but he dashed though and grabbed it and walk back to the couch. '*Weird...* I said to myself as I slowly and quietly walked towards the couch and stared at his phone with a phone number I didn't recognize or the person's name, *'Who is his Lighter guy?'* I thought to myself as I looked at the text it said.

Lighter: So your gonna do it today even though I gave you a day off?

Emo: Why not I have nothing else to do you know and I would like money for overtime.

Lighter: You can get overtime by coming over to my house you know ;)

Emo: Yeah but I'm still not sure about doing that yet...

Lighter: Take your time I'm just telling that the offer is still on the table.

Emo: Maybe when I get Grassy we probably could it but I don't know if I can take it 0///0

Lighter: Haha well see you after you do you task?

Emo: As always boss

Lighter: Don't keep me waiting pretty boy

Emo: I'll try but I have my half brother and he is going to be asking where I'm going and maybe I can get out of the house by asking his boyfriend to pick him up for a date or something.

Lighter: Good idea, love you

Emo: Love you too <3

After all of that I walked back slowly and sat at the dinner table thinking to myself about what just happened '*What did it mean by get Grassy, how come he didn't tell me that he had a job, and is he in a relationship with someone or do they say that to each other in a friend way???* The thoughts circled my head for a while then I decided to listen to his show. "However, believe it or not, the more you think about it, the more it drifts away from reality."
'*Ok now I'm bored'* I said it myself as I walk into my room. Few hours later I get a call from my boyfriend Eraser and I answer it. "Hey Pen, I was wondering if you would like to go on a date with me tonight?" He ask me with confidence and I laughed then I told him "Of course I would and I would like to ask you something during our date." "Anything for you love." I smiled and then we talk a few more minutes before hanging up. *'Is this your plan Emo?'* I raised an eyebrow...
Eraser's POV
I hanged up and walked into the kitchen with a big smile on my face. "What's making my little bro so happy?" I was pulled into my older brother arms and I ended up getting a noggie and I pushed him off of me. "You have been doing that for years." I sounded annoyed and all he did was laugh. "Can't someone take on the master of picking on their siblings?" He made no sense to me but I shrugged, I thought for a second and then I gave him a evil smile. "Well at least I'm not single." Then out of nowhere my dad pretty much broke his door but opening it and he had the biggest smile. "Now you can go live with your girlfriend because your old enough to leave my house and also who is your girlfriend!" *'How I'm I gonna tell them that it's a boy?'* I said

to myself as my sister and my mother came out of the bathroom and my mother had like forty different colors of makeup on her and was done poorly. "Maybe you shouldn't let our daughter put makeup next time eh?" My father pointed at her and my sister looked upset. "Hey you look good mother dont listen to dad." "HEY!" He yelled as my sister walked to me and hugged me then walked to mom and stood next to her. "So about the question your father asked who is your girlfriend?" I gulped then I heard a car pull by and it was my date Pen. "Sorry my date is here so see you later." I ran to the door and opened it to Pen with a shock face. "You ok?!" He laughed as I shook my head and grab his hand then I was stopped. "HEY GET YOUR ASS IN HERE WITH YOUR DATE!" My father said I whispered in his ear. "They dont know that your a boy so this is gonna surprise them and I never told them that I'm gay so yeah." Then he nodded and we let go of each other hands and walk inside and there faces where confused expect for my sister who smiled. "That's not your date that's your best friend." My brother pointed out then my sister added. "It called a gay couple..." She sounded annoyed then my mother had her jaw to the floor as my father laughed. "Knew it." I didn't question him then my mother just had to ask. "Did you do anything yet." Pens face lid up as I face palmed. "We haven't been dating that long and no we did not..." "Oh boo." My mother shook her head as I looked at Pen and mouthed. "She did this to her brother..." He covered his mouth then coughed twice then looked back at them. "Ok enjoy your date little B." My brother said mortified then walked into his room then I heard vomited so my brother is not ok with this... "See you guys later." Then we left, an hour goes by and we are at the park that we got together at and then then Pen looks at me. "Hey Eraser can I ask you something?" I looked at him and nodded with a smile on my face. "Did Emo send you a text about taking me out on a date?" My eyes widened because I remember a text that I got from him and I thought nothing of it...

Emo: Hey Eraser this is Pens half brother if your forgot and I want you to take him out on a date because he has been acting lonely when he's not around you so it could be a special treat for him(°ʖ°).

Eraser: Ok...

I nodded and I showed him the text and we looked at each other with suspicious looks then Pen pecked my lips then told me. "You know if your brother never did that I would've have the balls to ask you out this early in our relationship" He laughed loudly then looked at me once more. "I want to know who this guy that Emo is hanging out with you agree?" I said to Pen and he nodded. "Well all I know is that his name is Lighter." "Interesting." I repocate the thinking emoji and Pen smiled. "Maybe you should ask him about it tomorrow or at least tell him that you know that this is your boss and you guys are friends or something on the lines of knowing his so called secret." Pen nodded in agreement. "I'll ask him about it tomorrow."

Pen's POV

The next day I woke up next to Eraser and he was watching a show on his computer. "Babe?" He looked over at me as I sat up then he kissed me on the lips. "Yes?" "I'm going to go to see Emo and ask him about his boss then I will come back to the house to hangout and tell you anything new about the this ok." He smiled then nodded, then I got out of bed and turned around before I left I blew a kiss at him and he winked at me which made me blush lighty. I got home and I saw my dad on the on the couch upside down watching TV. "You should stop watching Spongebob and act like a adult once in a while." I yelled at him then I looked at him in the eye, he sat up then started tearing up. "Oh my god I forgot about how emotional you get." I ran up to him and hugged him as he keep yelling. "I NEVER HAD ONE, FUCK YOU MOTHER, FATHER, BROTHERS FUCK YOU ALL." I was very sudden then he started screaming in Dutch. "Ik hoop dat je in de hel brandt ... (I hope you burn in hell...)." Which I didn't understand why he was though. A couple hours went by and my dad stopped crying five minutes ago and continued watching his show as Emo walked out and there was someone behind him which I thought 'That Lighter guy' then everything was black for a few seconds then when I was normal I saw Emo with a homemade Irish Coffee next to him as he was watching a show on his phone I walked up to him with anger and he looked at me with confusion. "What?" He grabbed his coffee and dad has next to him so he gave it to him and he smiled and sat back down on the couch, I hit the table and his eyes widen. "What the hell his gotten into you!?" "What the hell are you doing with your boss that is so secretive that's what!" When I told him that he was a still as concrete and I can tell that he was terrified. "You ok?" I asked him confused then he tried running into his room I ran

after him and grabbed him in the hallway and his face was getting freaked out by every minute. "What's going on that is making you so scared if someone found out and also I didn't even know that you had a job until yesterday." I let go of him, he looked at the floor then looked back at me then told me. "I got a job somewhere that I'm not aloud to say and then I started staying after work hours to get a good relationship with my boss then one day it was my birthday and when I came into the office he had both of his hand behind his back holding something and he was pretty nervous then I walked up to him. 'What's going on Sir' I asked him then he let go of it with one hand then moved the item out of behind him and put his other hand back on it. 'I heard how much you like Cherry Pie so I made you one' it was like a valentine theme and I grabbed it and put it on his table then folded my hand then asked him 'Ok what's up?' He looked at me then he quicky kissed me on the cheek and then I tell him that it is wrong to be in a serious relationship with your boss and he didn't care so we started dating and it's been four years since we got together and last night we decided to go a step further and we... Made out." "That long in a relationship and you decide to make out I did it the second day I got in a relationship with Eraser!" I said to him like a manic and he laughed. "That went better then I expected it to." He smiled and hugged me then all of a sudden I hear my phone go off and I looked at it and it was our group chat Emo watched from behind.

Firey: GUYS GUYS GUYS SOMETHING JUST HAPPENED!!!!!

Pencil: What you fall off a cliff and sounder ingredients why your still alive?

Flower: Lmfao

TB: Hey can you guys be nice for once in your lives?

GB: Yeah like TB said be nice

Firey: CAN YOU GUYS LIST TO ME!!!

Snowball: Sure why not....

Firey: I FOUND GRASSY DEAD!!!

My eyes widened as I walked backwards, heard Emo gulped and I looked at him. "What did you do to Grassy before he died?" I asked him and grabbed me and dragged me into his room and whispered into my ear. "My job is... Assassination. "Wait what?!" I the first time in my live I saw him crying in fount of me. "I won't tell anyone just don't kill anyone else that we know of got it." I didn't want my brother to get arrested or so kill everyone that I know of. "My boss already knows that so this the first and last time I'll do it in our circle I guess I know fucking know." I nodded and we hugged it out...

I hope you enjoyed it was trying to find a plot that I could use for the next chapter without going to fast so have a good rest of your day/afternoon/night :)

Short but Part 7

Paper's POV
I was sitting on one of the bean bags and it has been a week sense the party happened and yesterday was Grassy's funeral and I was the only one there other than my best friend OJ and the only reason he came also was because of me which made me blush lighty... I was confused why I did it but I set the thought aside and hugged him. Then I heard footsteps from under stairs that were coming downstairs to where I am at. "Paper!" I look up and I see OJ running towards me. "Woah dude slow down before you-." Before I could finish he stopped but a bunch of Orange Juice spilled on me and I squinted at him in anger and he looked at me with guilt in his eyes. "Slow down next time you dumbass now I'm covered in orange blood I think." "How about we get you cleaned up if your so upset about it." He looked at me with a half smile then grabbed my hand and he ran and It was hard keeping up with him without having to hit face first into the ground. After I got cleaned up he was a full glass of orange juice once more, I walk into the fridge with a drink in my hand and walked up to him with it in my hand as I open it. "Payback bitch." I chugged down the drink and he yelled. "Ahh your drinking orange juice." He ran around in circles as I shook my head with an emotionless look on my face. "Calm down OJ I was just playing man." He looked at me then laughed. "Yeah because that is not like you to do that." I put my hand on his shoulder and I could see a light blush but I ignored it. "Hey how's life for you?" I asked him he chuckled nervously and said. "Well Salt is so determined to have a date together even though I don't really like her in that way." I felt weird when he was talking then I was back to normal when he said that he didn't like her in that way. '*Weird'* I said to myself.
Pepper's POV
I was texting to Salt about her so called date with OJ and then Paper walked towards me with a confused look on his face I put my phone down as he sat down next to me. "What up now?" I have been his 'therapist' because I'm the person who is a social butterfly and Paper

on the other hand is antisocial but he only talks to me or OJ like a normal person. Anyways Paper looked at me and rubbed his back. "I don't know why but I didn't like that OJ is going on a date with Salt. I just don't like her in general, just the way she is with him just makes me feel jealous but I was relieved that OJ didn't like her in that way but it was weird that my body felt different when I heard that. Do you know what was happening?" I giggled then I told him. "Maybe you have a crush on him." He went completely red and he covered his face in embarrassment. "WHY WOULD I LIKE HIM HES MY BEST FRIEND!" I wrapped my arms around him as he took his hands off of his face and looked at me still red in the face. "Even though he is your best friend doesn't mean that you can't have a crush on him if that's what your meaning." "I mean by like I never had though about liking him in that matter it just doesn't feel right when I think about him in that way." I look at him like boy you just told me that you like him yet you think it's wrong to like someone what's with you???
A month later Paper has started to understand his feelings towards OJ but has keep them hidden and Salt had her date with OJ but he friendzoned her on the spot. And now I've noticed that OJ and Paper have started hanging out more.

OJ's POV

I was playing Animal Crossing New Horizons with Paper, he was addicted to it and now I am as well. During the game Paper started to be less talkative and was talking under his breath so I put my controller down and faced him. "Hey is something going on because your acting strangely?" He looked at me then looked down. "Well... I have something to tell you." I looked at him as I moved closer, touching his leg. "What is it?" He looked up and quietly said something that I couldn't hear. "Paper!" I firmly spoke and he flinched, he looked at me and he moved closer having our legs touching which made me confused but yet I lighty blushed. "I have been wanting to tell you for a long time but I'm gay but the reason I hid it was because I thought you just acted like you supported it but I felt stupid thinking that but it always comes into my mind when I think about you." My eyes widened, I hugged him and he did the same. "What made you think that?" I said to him he let go and I moved back to my original spot. "Well just when you heard that Knife and Trophy were together you rolled your eyes so that when I thought that." He rubbed his back looking at me feeling stupid. I put my hand on his shoulder, he smiled. "The only reason I rolled my

eyes was that they were friends then enemies then best friends, sorry to confuse you." He just sat there quietly I stood up and walked to where he was sitting and kinda pinned him on the couch just to get his attention and he became very red in the face. "Hey sorry, would you like to hangout with me near that cliff tonight?" He nodded slowly as I apologized for what I did again and he forgive me.
Trophy's POV I made this for some reason...
Knife was laying on me as I was texting Snowball about issues with family and then he quietly spoke. "Can we head to the bed?" He fluttered his eyes at me I nodded looking around thinking that somehow my dad has passed out and we didn't see him, I picked him up into the bedroom and shutting the door, locking it behind. I threw him on the bed, I crawled on the bed on top of him. "Please! Be gentle." Knife whined as he wrapped his arms around me. "Don't worry I will..."

I HAVE NO ONE IDEAS SO THERE YOU GO!! HAVE A GOOD DAY

Part 8

Paper's POV
OJ followed me to that cliff I was talking about and we sat next to each other, staring at the moon. "Hey OJ." He looked at me as I started to get uneasy in my stomach. "Yes Paper?" He put his hand on my shoulder, his eyes looked at me with worry. "Well I need to tell you something..." I started to have butterflies in my stomach as I was trying to find words to say. "What is it Paper! Did someone hurt you?!" He jumped to conclusions as I shook my head. "Sorry I do that don't I." He chuckled as I did the same nervously. "Ok I'm just gonna say it! I love you." He looked at me in shock as I looked the other way, about to be in tears regretting saying that until he clawed to my left and he made of look at him. "Paper.. I feel the same way just I don't know about dating yet especially if my mother is very sick and possibly might die so I don't want to make you worried about me terribly if I'm gone for a while so yeah, can we wait on dating for a bit?" I nodded slowly as he kissed me awkwardly. "Sorry that was my first..." I laughed as he turned bright red.
Knife's POV
The next morning I was shaking because he was very rough and it was both of our first times yet I loved it... "You ok babe?" I turned around to see Trophy looking at me with worry in his eyes, I put my hand on his shoulder and told him, "I'm fine just still sore from yesterday and that you were very rough from last night as well and it, hurted for a bit..." "I'M SO SORRY!" He hugged me, I hugged back and after we hugged we talked for a bit and then we got dressed. "So what should we do today?" I asked him he stood silent for a bit thinking then he told me. "We should watch a movie." I nodded and we started looking for movies, then I walked back into his room to probably see if he has any then I walked to his closet opened it and a box fell out of it. "What's in here?" I picked it up and opened it at that point Trophy walked into the room and yelled. "DON'T OPEN THAT!!" It was too late... I saw alot of empty syringes of heroin, My eyes widened, I was about to cry. "Knife... I can explain." "WHY ARE

YOU STILL DOING THIS TO YOURSELF?! YOU PROMISED YOU WOULD STOP." I screamed and him, I fell on to the ground in tears he ran to me and hugged me. "I'm sorry baby I've tried, but I have cut back from seventeen to two a day." He told me as he rubbed my back I felt better about it but I still was upset. "You need to go to therapy." I told him right off, we looked at each other I had my arms folded staring at him I was being serious. "I worry about you so much it ain't even funny." I pecked him on his lips, he stayed silent for a while then spoke. "I'll go for you." He wiped my tears off of my face then kissed my lips. "I love you." I looked at him and replied, "I love you too."

After that day he did get a appointment with a therapist but his step father was being a baby about it and begged him not to go but he didn't listened because he promised me and didn't want to break it then he asked me to go with him and I accepted his request and she was very nice and she was very straight-forward and told him everything that would happen if he keep going with his addiction and also he keep going there for a long time and it's been five months since he has touched one *I hope*. But now he is addicted to being with me. He would call me everyday wondering what I was doing and everything and we would have hangouts and dates at each others houses when our parents weren't home and the surprising part was that they don't know that we are together even though we showed obvious signs.

Trophy's POV

One day we were talking to each other and all of our parents decided it was a great idea to meet each other other than Knifes real father. First I thought that my mom and dad were gonna argue like hell, when they did surprisely they all got along even my real mom and dad. And also fun fact I forgot to mention my dad is married to two women, so it was strange to my mom when she saw both of them. Anyways my and Knife were watching 'Jacksepticeye' because it was on. It was relaxing when Knife decided to lay on me probably tired then my stepfather asked me out of nowhere, "So I have noticed that you have been leaving the house lately, so do you have a girlfriend." "Yeah same with you Knife and how's Microphone." His mom added and Knife's eyes widened then whispered. "I forgot to tell them that we broke up." He sat up and we looked at them and he said. "Me and Microphone broke up nine months ago." He said nervously as I was starting to get slightly nervous. "Why didn't you tell us?" "I forgot and

I thought it wouldn't be a big deal to tell you guys." Then my mom walked in front of us and grabbed my phone off of the table and sat next to us and opened it to me and
'My Love <3' conversation and started reading the texts. "Hey baby are you busy because I want to hangout, you said." Both me and Knife were getting nervous as she keep reading then she got to the part that reveals it all, "I'm on my way but my both my mother and stepdad want to come and there names are S*antok*u and Boning." **(*I was trying to find names that were also for knife's*)** My mom had her mouth on the floor as the other just looked at us I gulped. "Is there something you need to tell us?" My mom said eye widened as I stood up and looked at everyone and rubbed my back. "Ok, this is terrifying you all here but I guess we got to tell you." I looked at Knife and he slowly nodded, then stood up terrified and he just hugged me started to tear up then I stared at his stepfather. "Me and Knife are, together as a couple..." My heart was pounding rapidly as I saw my father face reaction then all the sudden Knife's stepfather stood up and walked out and slammed the door, breaking it then yelled. "YOU CAN GET YOUR SHIT AND MOVE IN WITH YOUR FAGGOT OF A BOYFRIEND BECAUSE YOUR OUT OF THE HOUSE! AND HONEY LETS LEAVE..." Then his mother walked out the broken door and he slapped her then they drove off. Knife started balling as my father ran up to him and rubbed his back. "It's ok you can stay with us." He looked up and smiled as my stepmothers walked over and wiped his tears with a tissue. "It's ok honey well will be here for you like what your future father-in-law said." My other stepmother giggled for a second and at this point everyone was hugging my poor baby. "I'll be here when you get your stuff ok?" He nodded as he kissed me. The next day we went there and his stepfather tried murdering us when either of us were alone but I was very close to Knife when he attempted to with me. When we got home my mom and dad were drinking and talking to each other like when I was both until I was five. "Your back!" My stepmoms ran to us as one of them grabbed Knifes arm and mine then they said. "You two need a bath." They took us to the bathroom and closed the door I move myself to the door then I hear one say. "Better tell our husband that he is gonna to need to wear headphones." Then they left is I walked into the shower with Knife. "My mother's." "What about them." I looked at him as I pinned him to the wall. "Well about telling dad to put some headphones on so I guess we have to, if you want to of course." He

blushed heavily as I looked at him with lust in my eyes. "Can you actually be gentle." He rolled his eyes as I got closer. "Fine for a bit..." He smiled as we started to make out.

ttyl and I hope you enjoyed this

(Actually done) Part 9

Pen's POV
I've started to noticed that my father has stopped going out after his last ex girlfriend dumped him. He would be usually get over them quickly but this time he hasn't move out of the house for weeks. "Dad." I walked in on Emo talking to our father. "You need to get out of the house this is getting ridiculous." Then they started to argue to the point I had to stop it. "Stop! You need to calm down and dad, Emo's right you need to get out of the house because you don't want to become a fatass just because your girlfriend broke up with you." He didn't know what to say so he just walked out of the room. "Was I that rude to him." Emo looked at me and patted my head. "You were a bit harsh." I sighed as he walked out of the room, I felt bad so I decided to apologize and when I went into his room he was gone, I looked out at the window and it was open. "Where's dad?!" I looked behind me and saw Emo. "I don't know but he's asking like a teenager again." I pointed at the window as Emo giggled creepily as I raised an eyebrow. "I used to do that when you didn't know about my affair with my boss." I rolled his eyes as he smiled. "Done anything with him?" I winked at him as he blushed lighty. "No I'm not ready-." "Wimp." I cut him off as I start mocking him. "I'm too young for it, Your too big or I'm too tight, I'm Christian and I'm not going to have sex until I'm married." The last one really pissed him off, he punched me hard in the stomach and I feel to the ground. "DON'T YOU DARE CALL ME A CHRISTIAN!" Ok I forgot to tell you but my brother is Deist and Satanic so he does get offended if someone saids something about his 'God' being cruel or anything about him being a Christian... "Sorry! I was just joking." He let out his hand and I grabbed it and he pulled me up. "Don't make jokes like that you know how upset I get with those remarks." I patted his back as I heard his phone go off. He pulled it out of his pocket and turned it on, I put my head right next to him to read the text it was his boss.

Lighter: You have another job about someone named Globe,

male, 23 and they have said about it needing it to be done by tonight!

Emo: Ok but what about our date tonight though. :(

Lighter: Were doing it at my house though remember we can't be together in public.

Emo: I'll do it, right now so we can have our date.

Lighter: If that's what you want to do go ahead I'll wait for you baby ;)

Emo: K. And also the next time we meet there is something I want to tell you...

Lighter: Can you tell me tonight?

Emo: ...Sure

Lighter: Wait I know I'm jumping to conclusions but are you thinking about having a break with each other?

Lighter: I MEANT TO SAY THAT IN MY HEAD

Emo: Of course not I love too much to do that but I understand why you thought that because of our... inappropriate relationship I don't blame you.

Lighter: Ok see you later babe <3

Emo: See you.

I looked at him as he said. "Your coming with me to our date..." I looked at him with shock as he put his hand on my arm. "But this is your special day between you two I mean I don't want to be a third wheel." "Your not going to be." He called someone on my phone and said to it. "Hey Eraser, me and Pen are going to have dates and you are going to be his. Yeah-." Then we saw the door open and out comes my boyfriend with a big smile on his face. "Double date." He started dancing which was embarrassing to me but Emo calmed him down. "Ok since I'm doing this I need to tell you that you can't tell

anyon-." "Your in a relationship with your boss I know." He admitted as Emo immediately looked at me. "I don't hide things from my boyfriend but he the only one who knows about it ok." He sighed in relief but he said. "WAIT DID YOU TELL HIM ABOUT MY JOB!" I shook my head as he sighed in relief. "What is his job?" Eraser asked as Emo gave me a deathly look. "What ain't he going to find out when we go to your bosses house?" He glared for a bit before a face palming. "Whatever just don't say a thing." Eraser nodded in confusion. We went into his car and we drove around and Eraser was getting bored then asked. "What is this jo-." Then all the sudden the car stopped and Emo was out of the thing faster than we can turn. We watched him as he followed someone probably that guy named Globe. Then a few minutes went by and we hear the back door of the van open and Emo with blood on his face and arms, threw a black bag in the back and closed it and ran to the front and immediately turned the car on and drove the van out of there. Eraser was really confused as Emo drove us to a random river and threw some gloves at us and yelled. "If you don't help depose this body I'm going to get killed." I got out of the car and same with Emo but Eraser just sat there then Emo just smacked him. "I get to throw a body into a lake. That is wicked!" Eraser just walked out of the van and we depose the body and immediately left the scene. Twenty minutes went by and by that time it was 9PM, he stopped the van and I looked up and it was his bosses house. "We're here but give me a second K?" We nodded as he walked to the house. A couple minutes later we heard the van door open and Emo didn't say anything but tilted his head to the front of the house and he walked out and when we got there there he was my half brothers boss, he looked strong and really sweet but not my type and I was already taken by the person I want to be with for the rest of my life as well. We sat down as Emo sat next to Lighter. "And who is this." Lighter pointed at my boyfriend as Emo whispered for some reason. "My half brothers boyfriend." He nodded, the hours went by I wanting to ask. "Emo how did you fall in love with your boss and Lighter how did you fall in love with my half brother?" Then I just realized Lighter didn't know that I knew about them being lovers and Lighter looked at Emo as he looked down at the ground. "How did they find out." He asked calmly as Emo looked at him. "I ended up telling him after he went though my texts and they know about my job but they don't mind." Lighter looked calmer about the situation and kissed Emo on the lips saying, "I've been waiting to kiss

you this whole night." For the first time I saw Emo blush and I feel that he was happy unlike with his high school girlfriends, this is his first relationship in twelve years well eight years because they have already been dating at the time. "Well to answer your question he was just the guy that I somehow liked and I didn't have to kil- I mean fire-." Lighter looked at my face which was also was my *'I know'* look. "Ok I have a policy that if you quit your job you can't be trusted with the secret so we kill you simple as that." "Can you continue the story." Eraser sounded like a child, but Lighter nodded the spoke once more. "-Him and we started hanging out everyday after work he said it was to get a raise or something on those lines.." Emo rolled his eyes as Lighter kissed his forehead. "Then I slowly fell in love with him after my seventh divorce, but you know I was quiet about my feelings because he was my employee. But your brother told me that he also was in love with me but thought I was still with my ex-wife and that I was his boss but he must of told you about how I confessed." I nodded as he smiled. "SEVENTH DIVORCEES WHAT ARE TOU DOING WITH YOUR LIFE!!" Eraser yelled as he had his hands on his face. "I don't know but I know that will be my last ex." I didn't know why but I stood up and hugged Lighter, he hugged back and let go. "If you guys are planning on marrying each other you have my blessing." Eraser stole my line as I said. "I was about to say the same thing." He gave me a guilty grin as everyone chuckled, I sat down as I heard my phone go off. "Who could that be." I said as I answer it. "Hello?" "Hey kid this is your father, I'm not going to be home tonight just so you know that." "Why?" "Umm, with friends ok see you later kid." Then he just hanged up. "What the." I shrugged as I put my in my pocket. "Who was that?" Eraser asked me as he decided to grab my hand, holding it. "Dad, not going to be home tonight." After the dinner Emo told me to take the van home and he will come home tomorrow morning. So Eraser drove home because Lighter gave me some beer and I was a little bit lightheaded. "You shouldn't of done it now there is a chance that your going to be a father because it broke." I started to get bored as Eraser was taking to his brother on the phone which was the stupidest conversation I have ever listened to. When we got home I was sitting on the couch laying on Eraser as he was looking at Deviantart for some reason. "Eraser..." He turned off his phone and put it down and looked down at me. "What?" "Bored." He put his hands under me and sat me up with his hands still on me. "How about we, you know head to your bedroom." He

growled as I blushed heavily. "Really Eraser!?" He nodded as he put his hand between my legs rubbing it slowly. "Please~." I softly moaned as he looked at me. "Please what?" I couldn't believe that Eraser is taking this leap I thought he would wait a bit longer but I did get in the mood. "Take me to the bedroom." I purred as I he picked me up and took me into the bedroom.

Gray/Pen's Fathers POV

I was at a bar because I was still depressed about the break up and he boys wanted me to go out so here I am. "Hey." I heard a voice behind me so I turned my head left and saw a very attractive guy sit next to me. "My names Shane yours." He brought me a shot as I responded. "Gray..." I don't know why but I already fell in love with him, and I thought *'Both of my sons that I still talk to are gay why am I becoming one as well this is very strange...'* I got lost in thoughts before I felt a hand on my shoulder which made me flinch. "Sorry, but are you ok?" I nodded as he brought me another shot. "Do you have children of your own?" I asked out of curiosity and he smiled and replied. "I have one but his stepfather kicked him out of the house recently for being gay, I hate that bastard. Do you have any children?" "I have more than I can count but I have two that live with me, ones in a relationship with their old friend and the other with their boss." He nodded as I decided to buy for his shot. "Thanks Grey." He smiled as I blush lightly. "What's been happening." He asked me as I reply. "Nothing much, my kids wanted me to get out the house because I stayed inside the whole time since my last break up, I'm tried of women..." I accidentally admit as he giggled. "So your going to be after guys now." We laughed as we stared at each other, we were both red as I whispered. "Love at first sight." "Come again?" I jumped as he raised an eyebrow. "Do you want to come to my house?" I quickly respond as his eyes widened as he nodded. "I would love to." We talked for a little bit longer before he drove me to my house in his car. We got to the house and opened it and sat on the couch. "Nice place." I blushed lighty as he looked at me. Then a few seconds later we started to hear some muffled noises and I stood up and walked into Pen's room and busted in and yelled. "I have a friend over if you want to be loud do it in the basement." Then I closed the door and walked back into the living room and sit really close to Shane. "I know we just meet but your really cute." He commented as my face lit up, he was a really sweet man and really hot and I already

have feelings for him... I feel bad that I giving in so quickly maybe that's why my girlfriends don't like me... "You ok?" I looked at him as he put his hand on my head. "Nothing really..." I lied as he gave me a half smile. The rest of the night was amazing and he planned on meeting again the next day! Which made me smile, and long story short me and Shane got together after 3 months of knowing each other. We both knew that we had feelings for each other for a bit and the strange thing is that either of our children knows about us seeing each other.

I had posted this on accident earlier and some people read it before it officially released so I had to kinda cut to short so I hoped you enjoyed

Part 10

Coiny's POV
I was at Baseball's house for some reason I forgot why though and I saw Nickel with his eye patch on staring at the TV even though it was off. "You ok?" He turned around and replied. "I'm fine." He walked out of the room as I raised an eyebrow, then I heard someone sit next to me. "Sorry about him, he's still trying to adjust to being in a house you know about what happened with him after getting eliminated with Balloon then he escaped! And wasn't found for a few years and he had been living in the woods since then." He chuckled awkwardly as I turn on my phone and look at the time, 11:00AM three new messages and also new Facebook post by David Draiman, and news posts about a murder corpse found in the river turns out to be someone named Globe. I pressed on my messages one was from Pen about Eraser leaving his phone at my house, the second one was from my Father telling me that I need to see him soon, the third was from Firey yesterday had asked if I was coming over tomorrow morning and it is today and I stand up immediately after reading it and Baseball looked at me in confusion as I look at him. "Gotta see Firey-. "You mean your childhood crush." He rolled his eyes as I frowned at him. "Sure whatever you say." "The reason you bullied him was because you secret had a crush on him and also about your father abusing you in the past about being gay." I hated when he mentions my father's past but it's the truth so I nodded as I heard Nickel come back and he grabbed Baseballs legs and dragged him to their bedroom. "HELP ME NICKELS GONNA RAPE ME!!" I laughed loudly as I walked out of the house to my car. "Well he's going to be sore for the rest of the day." I commented then I hear Baseball yelled. "YOU ASSHOLE OF A COIN!" I got into my car and drove out of the lot and I chuckled pretty much all the way to Starbucks, what I like there coffee, at least I'm not one of those teenage white girls that are obsessed with it... Anyways I got to the drive thru, ordered, paid for my drink and when I was about to grab my order I saw both Pin and Pencil working then they turned around and stared at me, my face

immediately became red because no one knew I liked it and I remember someone saying. "If anyone drinks Starbucks and is a guy is gay." I chuckled awkwardly as I say, "I guess I'm gay then." The two burst out laughing as I put my head on the wheel then looked back up. "Let me guess Firey?" Pencil asked as I nodded still very red in the face. "It was so obvious that you guys do, what did you think what mine and Leafy plan was." She covered her mouth as I raised an eyebrow. "Alright me and Leafy were together before we got with you and Firey, we were making a plan about getting you two to be friends again like when you were kids before you had to end it with him because your father forced you after finding out you were gay and though you guys were together but I know how much you don't like to talk about him..." I sighed but something hit me *'How did she know I was gay?!?!'* I thought to myself but I ignored it after Pencil said. "You know something your not the only one with a homophobic father, Knife's stepfather kicked him out the house for being one and Snowball has Catholic parents which believe that it's worst then incest for some reason..." Pencil shrugged disgusted as I sighed again feeling stupid that I let someone control my feelings towards others. "Well I'm probably holding the line and I have to go to Firey's house to watch Onward with him." "Ok, make your first move on him man." I smiled then nodded as I drove out I swear I heard Pencil say. "I wish that Barley and Ian were a couple even though there brothers I have found so many smuts between the two and I WANNA SEE THEM FUCKING!!!" My eyes widened as I got on the road mortified on what I heard I looked on my phone and it looked like I had it voice recording and I pressed the square bottom as I smirked. "Time to embarrass Pencil with this." I gave out an evil laugh as I get a call and I answered it without knowing who it was. "Hey Coiny speaking." It was silent for a few seconds before someone spoke. "Hey it's your father, I heard some stuff about you having a crush on your ex best friend is it true?" I immediately wanted to end the call right there but I knew what would happen if I did. "How did you find out?" I rolled my eyes as he snapped "Don't talk to your own father like that! You know how I am with gay people." "I know but some people have different opinions, I don't hate you for being against it just let me be who I am and you be you." I said acting calm as I can but he just gets angrier by the minute. "Ok I'll be me, YOU SHOULDN'T BE A FAGGOT LIKE YOUR OTHER FRIENDS AND I KNOW KNIFE'S STEPFATHER WE ARE GOOD FRIENDS AND WE BOTH AGREE

THAT GAYS SHOULD BURN IN HELL BECAUSE SATAN MADE YOU GAY!." "JARED! **(Coiny's father's name).**" I yelled as he decided to growl for some reason. "FUCK THE COMMUNITY, FUCK YOU, HOPE YOU BURN IN HELL THIS IS THE REASON YOUR MOTHER COMMITED SUICIDE !!!"He had to go there... Then he hanged up as I started to tear up both being upset with him but also because I was mad at myself for being who I am and that I'm such a disappointment towards my father. And well my mother I don't want to talk about it...

Firey's POV

I was playing a random game on my phone on my bed have I mentioned naked, as the door opened I looked up thinking it might be my father because ever since we met each other again he has been seeing me everyday. But instead it was Coiny he looked like he had been crying, "hey Firey I was thinkin-." And then his face quickly turned red as I showed no emotion on mine because I was so used to it. "Sorry dude I didn't know-." "Don't care if your so upset about it I'll put some shorts on or something." He nodded with a slight blush which made me a little suspicious but I ignored it as I get up and open my drawer and pull out a pair of shorts and put them on. "Better?" "Yeah... are we gonna still watch that movie?" He was kinda stuttering which made me go over my suspension level. "Ok what's going on?" I said as he looked at the ground embarrassed. *'He sucks at hiding things that's for sure..'* I said to myself as he looked back as he said. "Your hot without your shirt on..." He admitted as I blush heavily wondering why he would say that until he said the obvious two words. "No homo." I rolled my eyes as he just walked towards me and hugged me since he was a coin he couldn't melt unlike, Leafy... I still hate her for what happened at the party but a few hours later we finished the movie and Coiny out of nowhere told me about what Pencil said that the elf brothers should be, screwing each other which made me mortified. "Movie is over what now?" I asked Coiny as he looked at his phone on his father texts then he grabbed me into a hug burying his face into my chest, then he started crying loudly. *'Thank god I have my fire resistant waterproof shirt on'* I said as he put himself on my lap as I blush lightly. "I'm a stupid fag.." I immediately hugged him back as I whispered into his ear. "You are not a stupid person that's attracted to the same as yourself, you are an amazing person that is strong and smart! Don't let anyone change you for being who

you are, I-I love you bro..." He looked at me with his tears all over his face as I put my hand on he cheek it hurted but I wiped his tears as he slowly smiled at me. "Thanks just my dad mentioned my mother doing what she did because of me being gay..." He flipped himself around so he had his back on my shirt, I wrapped my arms around him and he put his hands on my arms. I saw him blushing and it made me chuckled. "Your very red you know that right?" He jumped as he stuttered. "N-No why would I be doing that!" He looked at me with a frown on his face as I rolled my eyes. "Okay if you say so..." Then I kissed him on the forehead as Coiny's face went crazy red then he grabbed my cheek and kissed me on the lips as I blushed heavily as we started making out. I started touching his shirt taking it off slowly and then we heard the front door open. "Hey son I just found this game we can pla-." We broke the kiss as we look at my father, both of us were red of embarrassment. "I can come back later." "NO! We were just about to stop but thank god you reminded us about breathing by walking in." I rolled my eyes as Coiny awkwardly chuckled at me, my father started laughing loudly as he walked into the kitchen to grab a bottle of whiskey and came back and sat to the far left of us. "Also let go of me you dickhead." Coiny said as I let go of him and he got off of me and sat next to me. "How long has this been going on?" My father asked as I reply, "we just got together like two minutes ago." Coiny growled as both me and my father laughed loudly as he slapped me. "Well maybe he needs to see a therapist." My father said awkwardly as Coiny got up and walked into my room, I looked at my dad as he sighed loudly. "Sorry he was hates them because his father's sister forced him into one and made a bunch of things up to get him in it and he has never been the same." He nodded as I walked into my bedroom to find Coiny holding my body pillow that had me on it. "Like that pillow?" He threw it across the room when I jumped on the bed. "My father is sorry about mentioning that he doesn't know about your past." "Yeah I thought that so when I came in here, I already thought he was sorry." He crawled over and layed on my legs looking up at me. "Also my dad can be brutality honest at times like I can be." He giggled as I smiled at him. "You are you asshole." He sat up and kissed my cheek rolling his eyes at me as I picked him up and put him on my lap again. "Your weird..." I pecked him on the lips as he raised his hand and I grabbed it. "Oh no you don't cutie." I purred the last part I made him blush lightly. "Let go you dick." I let go as he got off of me then slapped me

lightly on the lips. "OH THAT IS HOW YOUR GONNA PLAY EH???" I got off the bed and grabbed him lifting him up and he didn't even fight me he just wrapped his legs and arms around me and softly groaned, I got out of the bedroom and back into the living room and I see two small children running around the couch and I saw my mother talking to my father. "How did she get here so fast?" "Well kid I was in the same car as your dad and your siblings decided that your father was taking too long and ran into the house and of course I followed." Then she looked over to me and she blinked a few times then she smiled at me. "Coiny can you let go." I asked wanting to hug my siblings but Coiny said. "NO! Pay attention to me." He whined as I walked to the couch and gently placed him on it and he slapped me yet again. "Behave!" One of my siblings said as they threw their toy at his face. We spend the rest of the day hanging out but Coiny told the kids to raid my room as he explained his backstory a bit more and in the middle of it he started tearing up but he keep telling it and in the end of that story my parents were hugging him and I think it was overwhelming him but I did see him smile hugging them back.

GOT NOTHING ELSE TO DO SO HERE YOU GO TTYL HAVE A GOOD DAY!!!

(Lazy-ish) Part 11

Shane's POV

"Dad are you seeing someone?" My son had asked as I looked at my phone reading about the news and I ignored him because *'if I did he would not ask it-*, "DAD ARE YOU DATING!!!" *-I thought not...'* I put my phone down and look at him with his boyfriend and I nodded picking my phone back up and I was texting my shitty boss about a raise and then his boyfriend asked. "Could we know who?" He was calmer than my child but I keep looking at my phone then I responded. "You will not know who but I'll tell you that they have children and two live in his house..." I said annoyed then I realized that I just said 'his' my face went red but I know they would support me but there reactions said otherwise. "Your bisexual?" His boyfriend asked as I nodded with an embarrassed smile on my face and then my child walked up and hugged me. "Well at least you support me otherwise I would question you?" My kid just busted out laughing as I looked at his boyfriend and he shrugged. "Well I got a date so... GET OUT OF THE HOUSE!!!" Their faces were speechless as I chuckled awkwardly. "Ok dad anything for you and your boyfriend." The kid left and then his boyfriend before leaving said. "Don't get a noise complaint from the neighbors." He chuckled as he closed the door, I shook my head as I heard my phone going. "Answer me Senpai~." I walked over and pick it up and Gray's name on the phone. What, I watch anime with my son and... Hentai but hey I have a custom ringtone when Gray calls as well. "Hey sugarplum how's your morning?" "Going good hows yours?" "Well just told the kid and his boyfriend that I'm dating a guy and of course supportive-." "Did you tell them who?" He sounded terrified on the other line as I spoke. "No they don't know who, baby and also the date at my house is a go!" He giggled on the other line as I blushed lightly. "Hey how about we you know... take over relationship to the next level?" I asked awkwardly as I hear him stuttering. "W-Wait w-what you mean by 'next level'?!" I can tell he was probably flushed on what I just said and all I said was, "you will have to wait until you come over to find out." I evilly chuckled as I

hear him say. "I'm coming over now is that ok?" I said yes and we talked for a few minutes before I hear a car pull upon my drive way and its Emo's van?! "Why is Emo's van here or is that you?" "I'm in my car picking us lunch remember?" "I gotta talk to you later ok?" "Ok babe talk to you in a bit." "Bye." I heard him say bye then I hanged up and then all the sudden I looked at the door and as I was about to open it three dumbasses opened my door like a swat team and I fell over. "What the FUCK!" I got up as I looked over and my face lit up. "Hi Pen, Emo, and Eraser." I waved as Pens jaws hit the ground and Eraser said. "Called it." Then he called someone then yelled. "SNOWBALL I WAS RIGHT YOU OWN ME FIVE HUNDRED DOLLARS!" Then hanged up. "Ok..." Emo looked at Eraser weirdly as they told me to sit down and I did on the ground. "I meant the couc-ah whatever!" Emo said as out of nowhere pulled a pocket knife and put it to my throat. "So your the one that killing all of these random people eh?" I said as he stepped back with no emotion. "What you knew?" Then I revealed something that made everyones eyes widened, "I work for your boyfriend Lighter but I don't kill I just just the requests about who to kill though, as well and your father knows about you and him and told me about you guys being a thing for about four years and I'm wondering if Pen told more than just Eraser?" Emo gave Pen a deathly look as Pen said. "I accidentally told him during a conversation about you but I didn't tell anyone els-." "Lie." Eraser said as I swear Emo was going to kill him. "Ok I told Snowball and Blocky but I didn't tell then about you killing people." I just sat on the ground watching them arguing then I hear the door open. "Hey babe I just-." I turned around seeing Gray looking at me and then his kids and also his future son-in-law yelling at each other. "So they found out." "Yep." They stopped and looked at him then looked back at me. "Dad, why are you dating him!?" I sighed as Pen asked the question. "Well I just like him ok he's one of the coolest yet the smartest person I have ever meet and I feel in love with him at first sight." He chuckled nervously as I stand up and walk towards him then wrapped my hands around him kissing his cheek. We looked at the kids and they had pissed off faces. "What can't your father date?" Gray pecked my cheek and whispered. "They said when I get a boyfriend they are going to be the 'overprotective father' like how a father would be when their daughter gets a boyfriend." He giggled as I kissed his cheek, I looked at the dummy's and Emo just shook his head face palming as everyone started laughing for no

reason. "What the hell is going on?" I asked Gray as he shrugged, then Gray started kissing my neck for some reason which made Emo turn his head to the other direction. "What are you so red for?" Pen and Eraser looked our way there faces lit up. "You want us to leave?" Eraser flat out asked and I nodded, they were walking out the door and both of us heard Eraser whispered to Pen. "That's going to be us tonight." And then I heard Pen whine in terror when the door closed I chuckled as I felt Gray lighty sink his teeth in my neck making me moan loudly. "Please stop!" I said as he quickly stopped and he started to tear up, *'shit I forgot how emotional he can get for everything'* "No it's ok just it, I want to take it to the bedroom." He immediately stopped and he giggled as I picked him up and took him to the bedroom. "Just a heads up, if you don't feel comfortable or I'm being to rough tell me ok?" He nodded as I started sucking on his neck. "I love you." I stopped and looked at him as I opened the door and shutting it behind me. "Love you too baby." I threw him on the bed and jumped on top of him, pinning him. "W-what do you want me to call you?" He asked so innocently as I replied. "Sir, master, senpai, or daddy you pick." I started stroking his cheek as he lustfully said. "Master~." His eyes were telling me everything he wanted to do and I smirked. "You ready?" He nodded as we started making out.

Snowball's POV

I finished watching a movie and everyone fell asleep as I opened my phone to a voicemail from Eraser. *'Oh no...'* I said as I pressed it and I hear him yelled. "SNOWBALL I WAS RIGHT YOU OWN ME FIVE HUNDRED DOLLARS!" It woke up everyone in my house as I sighed. "My ears." My younger sister whined as my mother looked at me raising an eyebrow. "Why do you own one of your friends?" I looked at her as I lied, "A bet about if his brother stays single when he hits twenty-five and he still is so yeah." I couldn't tell her why because I'm in a catholic house and I have a religious family. "That much though?!" My younger brother asked as I nodded with a fake smile. "Oh ok."

I few days later I went my boyfriends house because it was his parents wedding anniversary and they go on a week long trip that will be fun if you know what I mean... I head there and I'm greeted with a kiss on the lips. "Kids, do that when we're gone." Our faces turned red as we looked at his parents, his mother was giggling as his father just shook his head with a smile on his face. "We'll be going so

behave you two." His father said as we nodded. They left and we were sitting on the couch watching a random movie and both of us wanted to run into the bedroom but then out of nowhere I hear the door burst open. Somehow my sister drove herself to our house then I saw my brother eye widened as I chuckled. "She drives like a maniac." Then they looked at us with shocked faces, I raised an eyebrow then I realized that I had Blocky in my arms and he had his arms around me. *'Hope they don't think tha-.'* "ARE YOU DATING THE GUY IN YOUR ARMS?!?!" '*-Fuck...'* I said as I shakily nodding, Blocky woke up and pecked my cheek then he saw my siblings then his face lost color. "Shit sorry." Blocky said as he took his arms off of me... We all sat at the table and I explained everything to them and they looked very shocked but after it I stood at the window, I started to tear up as my sister ran up to me and hugged me. "DON'T CRY BIG BROTHER I ACCEPT YOU!!! SO DOES JACOB!!! **(Snowballs brother's name)**." I turned around and I saw my brother walking towards me giving me a hug as well. "You don't think that I should burn in hell for being a stupid fa-." My brother didn't let me end my sentence said, "no don't call yourself that you are being who you are and no one can change that not even god." I smiled as I hugged them back then Blocky walked up to me and smiled, I left go of my siblings and pressed my lips onto his and it was quick because I saw my sister looking at me with her 'I want attention' look "Sorry babe." He shrugged as I picked up my sister and put her on my shoulder then Blocky gave me the same look. "Really, we'll do it when these goofballs leave." My sister just confused and I looked at my brother and his face was lit up. *'Well he knew what I meant'* Blocky chuckled as I added, "A movie together sis." Just so she didn't questioned what I really meant. After my sister went into the car my brother asked me some questions about my boyfriend and his face his so red saying. "Let me guess you're not a virgin." I nodded as he put his face on the table embarrassed. "You ok?" Blocky asked as my brother put his face back up and nodded. After that weird incident he left and it was just the two of us. "Bedroom?" I asked as I looked at him and he quickly nodded eyes widened, I chuckled as we stood up and ran to his bedroom.

I have no more ideas other than a completely different person's POV but that will be for next part.

Question for everyone: 'Who do you think is the person Gray is dating?'

Part 12

Pen's POV
I was at my house, sitting on Eraser lap as we were watching 'The Lives of Others'. It was really good in my opinion, as it was about to end there was a knock on the door. "Now who can that be?" I heard Snowball in the kitchen as I looked to my right and Emo was making a trophy out of a crow which weirded me out. "I'll answer it." I got up as I walked to the door and opened it, I saw four people at the door that looked like me but there caps were a different color. "Hi?!" I said as the one with the red cap pushed the green one and then spoke. "Hey my name is Hawk, the orange one is Blaze, he loves fire. Then the green one is Arex he's has nightmares every night and has a masturbation problem-." "Fuck you." Arex said as Hawk turned around and pushed him on the ground again. "Ok and then the yellow one is Jen, they're nonbinary so just say they or them for pronouns." I nodded slowly as I let them in and the first thing they saw was Emo hands covered in blood holding a dead crow. "I can taxidermy by the way Pen, just dad his cleaning my room right now so I can't do it in there and-." He stopped when he saw the four behind me. "Pen.. Why are they here?!" Emo stood up as I shrugged Emo pushed me to the side as he stared at the others *'Why is everyone pushing each other today...'* I said to myself as I looked at Emo, he was staring at Hawk as he spoke quietly. "Hi- brother..." My eyes widened when I heard 'brother' "Um, Emo what is going on?" Everyone looked at Eraser as he stood up and walked over. "Ok Pen, I'm the oldest so I know all of my siblings and these four are your siblings, well half of course." I looked at them as Arex ran up and hugged me. "I'M NO LONGER THE YOUNGEST!" He jumped up in the air running around the room as Eraser wrapped his arms around me. "No touchy." I got embarrassed as everyone was staring at us. "Oh wow." Hawk said as Eraser picked me up bridal style as I started blushing heavily. "Stop it..." I whispered as Eraser put me back down and kissed my cheek. "Aw." Jen said as I've noticed that Blaze was gone and Emo saw this as well. "Where the hell is Blaze?!" Both me and Emo said as Hawk

started running around the house looking for him. Then all of the sudden our father comes out of room and froze when he saw his two other children. "I'm I dreaming." My father started tearing up with happiness as Arex and Jen came up to him and hugged him. "Your not." Arex said as dad hugged them back tightly, they let go as dad stood up and whipped his tears off of his face looking at Jen and Arex. "I missed you you much!" "I missed you too dad." Jen said as Shane decided to come out of my father's room. "Are you ok babe?" Then Shane saw the two and his face froze. "I thought you only had two children?!" He turned around facing his boyfriend shaking he head. "I forgot to tell you but when I was younger every week I would be in a different persons bed..." Shane quietly laughed as he commented after, "well you are not doing that shit anyone cause you already have a boyfriend, me" Shane growled in a lustful matter which made everyone in the room uncomfortable as I heard Blocky fake gag as I yell. "I SHUT UP YOU AND SNOWBALL DO IT EVERYTIME YOU GET ALONE! SO SHUT UP ABOUT THAT!" Everyone was weirded out at this point... After a few hours Hawk and Blaze finally came out of wherever they were but I saw that Blaze was walking a bit funny but a shrugged it off and they sat on the floor as everyone was just having a good time. Until we get another knock on the door, Emo stood up as he answered the door. "Hey Emo." I heard Lighter voice as I said to myself, *'Why is everyone coming to our house?!'* They were hugging and I was the closest to them so I heard them whispering to each other. "I love you so much cutie." "I love you as well Sir." They let go of each other as everyone slowly looked at the two and immediately Emo said. "This is my boss who is also my boyf- best friend!" He quickly spoke as Hawk rolled his eyes. "Lie." Emo face palmed as everyone started laughing. "What is life?" Emo said as I shrugged. Everyone was getting weird and confusing until Snowball and Blocky decided to go into the basement to have LOUD sex... Then everyone who didn't live here left expect the two, but I got everyones phone number so I didn't lose contact with them, But I noticed something... The whole time Hawk and Blaze were acting differently towards each other like they were gone for two hours and no one couldn't hear them and I saw them holding hands! Hawk noticed and quickly let go of Blaze's hand. I'm wondering if they are ***more than half brothers...***

Hawk's POV

I was driving everyone to the house as Blaze was staring at me with the cutest eyes. "What you looking at baby." I asked as Blaze decided to put his head on my shoulder as Jen commented, "I wonder how your father is gonna react to you two being more than siblings!?" I rolled my eyes in nervousness as Blaze said. "We don't know yet... Probably dad's gonna be so mad he's gonna abandon us and tell us we are not his sons anymore..." Blaze started to cry when I stopped at Arex's house, I got out of the car and opened the back door to see my boyfriend balling. "It's ok babe." I got into the backseat with him and Arex ran to his house because he didn't like hearing him cry. I picked him up and I put him on my lap and he buried his face into my chest as I rubbed his back, Jen got into the from seat and turned on the car and started to drive to their house. "Blaze it's ok they aren't gonna find out yet I promise." He slowly nodded as I started kissing his head as he kept sobbing. A few minutes later Jen stopped the car at our house as they spoke. "I'll babysit your car for tonight you go take Blaze to bed." I smiled as I got out of the car with Blaze in my hands, I walked into our bedroom as Blaze pretty much cried himself to sleep. I looked at him as I places him gently on the bed and I laid next to him. "Good night cutie." I said as he mumbled back. "Good night."

NOTES: WHY DID I GO FOR A BIT OF AN INCEST TWIST?! WHATEVER I SHIP BARLIAN ANYWAYS WHY DO I CARE?! ANYWAYS HOPE YOU ENJOYED THIS I WAS TRYING TO GET THIS DONE QUICKER BUT SORRY ABOUT THE WAIT...

Part 13

Hawks's POV
Well Jen drove my car to my work which was nice, and yes I did take the bus there. And I got off and thanked them and I drove him home. Jen got off and I drove home, I got home and walked though the door and I saw Blaze cuddled up to a big blanket watching TV. "HAWK! Cuddle with me." I smiled as I walked over and got under the blanket and cuddle next to him. He smiled as I nuzzled my head on his neck, he softly moaned as I quickly stopped and looked at him. "Sorry I didn't mean to make a noise like that..." He said as I picked him up and I placed him on my lap. "Don't be sorry baby, no one's here so you can make all the noise you want." I chuckled as he smiled at me. "Do you know how cute you are Blaze?" He giggled as I kissed his cheek, he loves being kissed, he tells me it feels amazing when we do. He kept looking at me as I turned on a random show for us to watch. "I want to watch something else." He looked at me as I saw what was on the show and it showed a ripped apart dog, I quickly changed the channel as Blaze turned his head back at the screen. "What do you want to watch my little plush?" I asked as he yelled. "There was a show I loved watching a few years ago and it was-." I put the TV on 'Son's of Anarchy' as his eyes widened. "How did you know?!" "Easy I remember everything you do cause I love you." I grinned at him as we both heard a knock on the door. "Oh no I gotta change." I raised an eyebrow as he got the blanket off of him and he was wearing my shirt and he had nothing else on. "Yeah go change." He nodded as he ran into our bedroom, I walked over towards the door as I opened it. I saw Eraser and Pen looking at me. "Um what's going on?" I asked as Eraser shrugged... They came inside as they're eyes widened at how nice, yet small the house was.Blaze came back out, with his favorite flower shirt on. A few hours went by as Pen sat next to me with his hands together and asked. "Hey I know I just found out about you two but... Are you two like **dating** or something?!" My eyes widened. Blaze whined quietly. I looked at Pen with worry as he expression was very serious. "What happens if we told you yes?" Blaze asked

quietly as Pen spoke. "Well if it was true I wouldn't mind to be honest. Yeah your siblings but I don't care at this point... I've read to many smuts that Pencil wrote between the elf brothers to care. But just don't be doing anything, sexual." "Oh we don't! Our relationship is more innocent than anything. Like we rarely kiss, we just hug a lot..." I admitted as Pen's eyes widened a bit. "Oh, um do you mind me asking. How did you two get together?" He asked quietly as I placed my hand on his shoulder. "Well you see, Jen, Arex, and myself we had to move with Blaze's mom for two reasons, one cause they were the closest around. And two cause our mothers died and dad was hitting the heavy shit at the time. We went there and it was a nightmare for him. She treated him like a chew toy pretty much. She was nice to us but not to him. One day she left the house and she always locked the fridge just so Blaze couldn't get into the food. I had leftovers and I ran into his room and gave him some. And I did that every time for a few years. Then one day we just leaned in and kissed each other. We were so embarrassed about it but we both liked it. So we started dating secretly, then about eight years later she kicked all of us out. Jen and Arex went to their friend's houses while me and Blaze went to our dad's house. It was so disgusting at the time, but we had to go with it. Then I got a job and I made us enough to buy this nice yet small house. And yeah we did get dad back on his feet as well." Eraser's face was speechless while Pen asked. "Dad was on drugs?!" I nodded slowly as Pen sighed, looking down at the ground in disbelief. "Yeah I don't know what happened but all I know is that he made friends with a stoner." Pen shook his head as he looked back up. "Wait how old were you two when you got together?" I chuckled as I replied. "I was seven he was six, yeah very young but we loved each other, and still do-." Then all of the sudden I hear the door open and I saw Snowball carrying Blocky bridal style. "PEN AND ERASER! MEPHONE FOUR IS PROPOSING!!!" Pen stood up as Eraser ran out of the house in a hurry. "What the hell." Blaze said as Pen quickly clarified to us. "Sorry I have to go because everyone has been wanted this to happen for a while sorry bye!!!" Then Pen left the house and the door was still open. "That was the weirdest shit I have ever seen in my life..." Blaze nodded slowly as he grabbed some blankets and placed them on him. "Aw you look so cute." Blaze smiled as I went under his blankets and we cuddled watching a movie. Then I got a call for my phone and I quickly answered. "Hey?" "Hi!" The voice was so familiar as I asked. "Who-." "Oh it's your other half siblings!! I'm

Jan. and with me is, Finn, Ivan, Oakley, and Silas." My eyes widened as I spoke quietly. "Are you guys coming over or something?" I asked as I heard a knock on the door. I got up as I saw Oakley staring at the window waving. I waved back as I walked over to the door and opened it. "HEY!!" They all said at once as I chuckled. "Nice seeing you all again, and Jan. Your transgender so pronouns." I asked as he spoke. "He, him, his, they, them, their. Also thank you for asking." I nodded as I let them in. They looked around the house as they saw Blaze sitting on the couch with the many blankets on him. "Aw is Blaze cold?" Ivan asked as I shrugged. Blaze whined a bit as I walked over and cuddled next to him. "Wow you guys are so close." I smiled as Blaze wrapped his arms around me and whispered loudly. "My bestie, and boyfriend." I chuckled as Jan shook his head. "You guys are weird and a bit gross cause your half siblings... But cute not gonna lie." Everyone nodded as Blaze kept kissing my cheek. "Hey... Do you guys know where Penny is?" I asked looking up at them as Jan narrowed his eyes. "I haven't seen her since she got on the news for having a basement filled with a bunch of dead bodies she had been eating off of..." Blaze cried loudly as I wrapped my arms around him. "It's okay." I said as I rubbed my hand on his cap. "Other than that I haven't heard from her... But I know she's around *somewhere*..."

OJ's POV

I sat next to my father as my aunt came out of the room with tears in her eyes. "What happened?!" My dad asked as my aunt was about to answer then the door opened and my mom came out. Everyone was cheering as my mom smiled at me then at my father. "How you doing buddy?" My father walked up to my mom as she replied. "Dude leave me alone I'm fine." They chuckled as I ran up and hugged my mom. "Hey sweetie." My dad shook his head as he commented. "Well he's your kid that's for sure not mine." She slapped him as she said. "What are you saying he's the mailman kid?!" They stared at each other they started to laugh loudly, My parents relationship is very weird they are divorced but they are best friends, but also I think they are connected to the brain or something. Also both of them have mood swings, sometimes that doesn't help... When we went home my mom decided to stay the night with us so we had a great night other than my mom went through my phone and saw the texts between me and Paper. Now she's telling my dad everything and he's shocked. "Son, your gay?" I nodded as he walked over and hugged me, then he

whispered. "I'm a bit bi-curious can you help me out?" I chuckled we let go, as my wild mom was dancing to cringey music. The next day Paper came over and my mom met him and immediately loved him, she left as my dad tapped my shoulder, I turned around as he asked being embarrassed. "Can you help me about if I'm into guys..." I chuckled as I shrugged. "Sorry dad you have to figure it out yourself." He shook his head as he mumbled. "That's Kerry's (OJ's Mother) Kid..." I chuckled as he walked off to talk to Paper.

Ray's POV

Three days later me and my son OJ went to the mall to pick up some stuff for my mother's birthday. It was a fairly quiet day other than OJ met up with his friend Eraser which was nice. We chatted a bit as they got a blizzard from the mini Dairy Queen then I saw an, aqua eraser come up to OJ and Eraser asking. "Hey you little dudes, oh you got fucking blizzards without me you little shits." "Well sorry Mike you weren't around." Eraser said in a mocking tone, they laughed as I heavily blushed at Mike. *'Wait a minute, Ray you've just seen this guy and you already like him.'* I said to myself as I stood up and walked up to him. "Um... Hi I'm Ray, OJ's father." He quickly stood straight as we slowly locked eyes with each others. "Oh hey! I'm Mike, Eraser's brother but you know he's ten years younger than me." He laughed slamming the table with his hand as I chuckled. "Sorry I just drank like six mountain dews last night and I'm still freaking out by it." His eye's widened as I giggled, He stopped as he smiled. "Your a great person even though we just met." I nodded as he grabbed my arm into the line. "You gotta try these! They're like the bomb." I chuckled again as he keep his hand on my arm which was making me blush heavier. "Your hot." I said under my breath as he quickly turned around. "Oh really?!" I immediately became embarrassed as I saw him smiling. "Thank you cutie~." He quietly growled as I started to freak out a bit. "Hey we just met and we are already acting like we're dating!" I said quietly, he frowned as he sighed. "Sorry..." I half smiled as I grabbed a piece of paper and my pen from my pocket. He slowly raised an eyebrow as I wrote my number and quickly put it in his coat pocket. "Huh?!" "My phone number, text me at ten tonight or sooner." I winked at him as he licked his lips. While this was going on OJ and Eraser were to busy playing hangman to look at us. After getting out the line we wander around the whole place also we did met up with Snowball and his mother and they joined us, but

Snowball's mother kept giving us bible speeches and it was getting annoying to be honest. "I don't want to sound rude but please be quiet. I already have a headache and I don't want to make it worst.." Eraser said calmly, she frowned at him but she sighed. "Wait a second." She stopped and went through her purse and grabbed some aspirin and gave it to him. "Take the whole thing I don't need it." She smiled as Eraser grabbed it from her hand and put it his pocket. "Thanks, but imma take it when we get out of here. Why, cause why not." Eraser laughed as she half smiled. "Your so weird Eraser, maybe cause you were birthed at a bar." Eraser gave Mike the 'What the fuck man' look, as Mike started running and Eraser ran after him. We stood there watching them, they stopped after a few minutes cause people were staring and Mike didn't like getting stared at he recalled. When everyone left to explore the mall I was sitting alone, going through Tumblr as I turned my phone off I saw Mike staring at me, I turn around slowly as he grabbed a chair and sat next to me. "Hey baby, how you doing?" I became red as I felt his hand rubbing my leg. "S-Stop!" I grabbed his hand and placed it on his own leg. "Woah, I didn't mean to upset you... I was just wanting to give you a rub on your leg, looked like you needed it!" I rolled my eyes as he sighed, He got out of his chair and walked off as I watched him the whole time... *'What a dick, I like him but now he's taking this way to quickly, probably only wants me for sex...'* I thought, a hour went by as I saw Eraser walking towards me. "Um what happened between you and my brother, he's looking really upset..." I stood up as I grabbed Erasers arm and started walking. "Where is he?" I asked softly as he answered, "oh he's by the mini DQ again." I let go of him as I quickly apologized and of course he forgive me cause that's just him, I actually found Mike in the bathroom going through his phone as I apologized to freaking out on him and he smiled and hugged me. "Sorry for doing that without asking but seriously you want a leg rub?" I nodded slowly. he started rubbing my leg, It was maybe a bit awkward but I enjoyed it. He stopped and we locked eyes for what felt like a second. Two seconds? We chucked, and it turned into a laugh. We quickly stopped as he decided to grab my arm, we locking eyes as he smiled. "Your such a cutie." I blushed as I replied. "Sure I am..." He placed his hand on my cheek and slowly stroked it making me blush more. "You are." He said firmly as I quickly nodded, I saw his eyes staring at my lips as I quickly leaned in and pecked him on the lips. "Oh!" He smiled as my face turn bright red. "I was about to

kiss you but looks like you already did." I nodded as he let go of my arm, I covered my face to hide my face as he chuckled. "So cute." He commented as I placed my hands to my side, he got out of the bathroom as OJ and Eraser were waiting for us. "So you guys good or hate each other?" Eraser flatout asked as Mike shook his head. "Nah we good little b, well I guess he should be heading home before mom beats our heads with a bunch of pillows." We all laughed as we all went home and when I laid down oh my bed I get a text by a number I wasn't familiar with but when I read the text I knew who they were.

Mike: Hey It's me, Michael

Ray: Why does that sound like something from Sister Location?

Mike: I don't fucking know, cutie... Anyways wanna come over?

Ray: One maybe and two don't call me a cutie >:|
Also I want to wait until we get to know each other before you start calling me that.
Again, Also why are you so into me so quickly?!

Mike: Ok I'll send my address in a sec. Oh and sorry I just think your such a cutie :(, And Oooo thinking about maybe getting together then lol. And I just think your such a nice guy once I laid eyes on you.

Ray: Ok and we'll see, but I wanna know you first like I said :|
And thank you for the compliment!

Mike: Your welcome :D

After he sent me his address I informed OJ I was heading to a friends house. It wasn't a lie. I drove over, and as I knocked on the door it opened. There was Mike. Nothing on. "Alright Mister pizza guy, I'm getting that damn pizza for fre-." Seeing it was me, he stopped, and chuckled nervously. I couldn't keep my eyes off of his... well... less than unfortunately sized member. He rubbed the back of his neck, as all I could do was stare "Urr- sorry, thought you were the stupid pizza guy.. You can come in." I broke my line of sight, as I followed him in. I was somewhat surprised by the size of the house, I looked around

the place with my eyes as Mike made his way to the pleather couch, sitting down. I walked around the bottom floor for a bit before Mike decided to come over, grab my hand, we slowly walked upstairs to his room. We got into the room, he jumped on his bed as he patted the side next to him is I nervously climbed on the bed. "So wanna learn stuff from each other?" He asked me as I smiled brightly and nodded. A few hours went by and we were having a good time. 'Oh my favorite color is-, my interest are-, do you like-.' That was pretty much what we were talking the whole time. Until I sat on him. He still had nothing on. I heard him quiet groan as I giggled to get his attention. "Yes?" He looked at me, I whispered. "I know we just met but I really like you... And I don't know why but this feels like one of those shitty Gacha Life videos on Youtube." "Yeah it does!!" He laughed as I turned around facing him. He looked up as I softly pressed my lips against his. He grabbed my hand as we sat there, kissing. He broke it after a few seconds and he chuckled. "Cutie?" I nodded quickly. I turned back around. I laid on him, he smiled. "My cutie." "Mhm." I looked at him. He looked back at me. He wrapped his arms around my stomach. I blushed lightly as he kept his eyes on me. For the first time of my life, I've felt safe near someone I actually love. "You're now my bodyguard." I commented as he laughed quietly. He kissed my forehead as I smiled at him. "Goodnight?" I questioned as he nodded. "Yeah bout time. Goodnight baby, also in the morning I'll have to get the ladder so you can leave the house without anyone knowing." I nodded, I fell asleep after a few seconds and he did the same....

Bonus Pov, Knife's

I was getting home as Trophy was driving me home. "This was a great day babe." He told me. I smiled at him, and he parked the car as I leaned in and kissed him. He kissed back, we stayed like that for a few minutes. We broke he kiss and I got out of his car. "See you tomorrow baby." I smiled at him as I closed the door and he started to drive off and I started waving. He waved back of course and I started walking to the house. I opened the door as I spoke. "Dad, I'm...-." I saw my father, Shane holding hands with Pen's father, Gray. They were sitting at the dinner table and their faces turned bright red as I finish my sentence. "-home?" I looked at them as my father started to speak. "I knew this day was gonna come... Anyways kid, I'm dating Gray. And I was nervous to tell you cause I didn't know

how you'll react." I eye's widened more as I shook my head. "Dad, I don't care who you've with just as long as they treat you right." I smiled as my dad slowly got up. I walked towards him as my footstep were hitting the ground, loudly. And hugged him. He did the same as I saw Gray still embarrassed, smile at us. "Thank you." He whispered as I nodded. We let go as Gray clapped his hands. "You such a cute little guy." My dad said to Gray as he stood up and jumped on my dad. My dad held him as Gray sat there giggling as Shane mouthed to me. "He does this only when I'm around." I nodded as my dad waved at me. I waved back confused till he started walking upstairs. I followed him up, then he went to his room with Gray. I went into my room and crashed on the bed.

Part 14

Umm. Inanimate Insanity Ep 14 Spoilers I guess (Only Prime Shimmer)... idfk ok! lol
Also this is an AU so this isn't true till the creators say otherwise.
And I'll have to make a flashback of what *MY VERSION* of the ending of what I think is gonna happen in season 2 of Inanimate Insanity!
And yes I changed my writing style!

Fan's POV
I sat on the ground as I looked around the dark night. I was bored. So I jumped out of my window. Long fall but I'm fine. I ran around the woods as I slowly tripped over something. I fell face first onto the ground as I got up.

"OH WHAT THE!?" What I saw was very bright. I walked over to it and grabbed it. I flipped it over and it shined into the night. It was very slim yet heavy. Then all of the sudden I light shined on me. I looked up and saw a egg shape. My eye's widened as I whispered.

"Prime Shimmer?" I floated up into the ship.
'Welp I'm doing this again...' I said to myself. Then I got into the ship as I saw him staring at me.

"Hello Fan!" He smiled at me. I laughed quietly. He came down as I saw the two baby eggs smacking each other.

"Yes, they have been the best. I forgot to say! Tell Trophy and Knife thank you for getting the last egg from Taco..." He growled saying Taco. I nodded as one of his white dots pressed against my lips. He giggled as I smiled. I was blushing as well...

"Sorry was that awkward..."

"No, no, no. Your fine! To be honest... I liked it." I admitted. His eye's widened. I saw a light blush across his face as he spoke.

"Well... What are you doing in the middle of the woods!? You could of gotten eaten by a bear..." I rolled my eyes. His blush was getting worse as I chuckled. He came down from his chair. He flew towards me. He stopped and he just stopped floating. He was on ground looking at me. I raised an eyebrow as he pointed to his back.

"I'm bored... Ride on my back for a bit?" He laughed as I jumped on his back and he teleported us out of the ship. He took me to a cliff. He sat me down on the ground as he looked at me.

"Fan... You know your friends?" I nodded, slowly confused as he spoke again.

"Well... I found some stuff out about... Taco! And two others..." I squinted my eyes at him.

"What?" I asked. He rubbed my back as he softly groaned.

"Sorry I do that! But anyways... I found out that Microphone and the green long thing-."

"Pickle.." I corrected him. He face palmed himself as he continued.

"Well... I found out that all of them are... Like... Dating? But like it makes no sense! You can't marry nor date more than more person?! Sorry I don't know much about this... LBGTQ community..." He sighed loudly as I rubbed his back.

"It's just very new to me... I don't understand it..." I nodded as I hugged his side. He placed his hand on my chest as I smiled.

"Prime; It's ok. Not everyone understands things. But I have to ask... Do you want to know more about it?" I let go of him. He nodded quickly as I brightly smiled.

"Ok! Just so you know I'm a demi-gay! So that means that I like the same gender. But, I only like them for their personality and traits. Not for their looks and sexual attraction!" I explained as he raised an eyebrow.

"I know what gay means but... Demi?"

"Oh sorry, demisexual is when people only experience sexual attraction to people that they have close emotional connections with." I finished. He blinked a few times before looking at the cliff. I can tell he was thinking. He just sat there. Quietly...

"Interesting..." He whispered loudly. He looked back up at me. He pressed his hand on my lips again as he blushed.

"Maybe... I'm one as well?" He looked at me as my eye's widened. *'Wait does he like me?!'* That Was the first thing that came to mind. Then his eyes turned pink.
'Pink?!' I said to myself again. He realized and his eyes turn back to white.

"Sorry I do that as well... Us Shimmer's eye colors change when we are feeling a strong emotion. So blue is when we are upset. Dark red means we are ready for battle. Like... Pissed off! And dark green means, we are just feeling sick... Light green means we are happy! But light red means we are feeling like... An emotion... I have never felt in my life! But all I know it means we are feeling loved..."

"What about pink?" I asked as he rubbed his back with his hand.

"That one I, don't know... I never had the emotion either but... Maybe the others know!" He flew back up as I stared at him. He looked below the cliff as I walked next to him. I placed my hand on his side as he's eyes turned pink again. During it I taught him about all the other sexuality's and genders as he was slowly getting it. Then all of the sudden he just purred. His eyes turned purple.
'He so my type! Laugh out loud!' I chuckled rolling my eyes as I thought that. I didn't want to tell him though. I liked him. Because just in case his feelings are false... Probably not but just in case. I sighed as I let

go of him.

"Something wrong Fan?" He asked as I shrugged. I looked away from him.

"I don't know. Maybe I'm tired." I yawned. He did as well.

"Yep, it's almost dawn." He said as I looked at him.

"That late?!" He nodded. I ran towards him and jumped on him.

"LET'S GO!!!" I said as he patted my head with his hand. We flew away from the cliff. We were looking at the beautiful sunrise. We stopped at one point to just look at it.

"So amazing!" I said as Prime rubbed my hand. Agreeing with me.

"Yes it is Fan. Also... Your amazing!" My face lit up as I chuckled. We flew around the area a bit more. Then we got to OJ's hotel, he flew to the ground so I could get down. I got off of him as we heard someone yell.

"HEY! What are you doing with your boyfriend?!" We both blushed heavily as we looked at the noise. I saw Trophy and Knife looking at us. Knife took a picture of us.

"Aw, what a cute couple." Knife pointed to his phone as Trophy laughed.

"Yeah! What were you doing?" Trophy chuckled as I rolled my eyes.

"We talked about different sexuality's! Cause he was confused!!!" I darted my eyes at them as Knife shrugged.

"Dude we were just joking... Can't you get a joke?" I saw Match and Pencil running our way, holding hands. As they gasped.

"That is a big ass daddy Fan." Match said, pointing at Prime. I froze as my face became extremely red. I covered it as Prime raised an eyebrow.

"I'm not Fan's dad." He missed the point as Pencil shook her head.

"Omg, you don't know?! Well-." She explained what Match meant. I looked up and his eye's were hot pink.

"Oh my... Well... NO I AM NOT! Your need to behav-. Never mind this I'm leaving..." He called his space ship as he floated up to it.

"I hate you all..." I said as I walked to the hotel. I laid on my bed as I heard Tissue sneezing loudly in the next room.

"I can't stop sneezing Yin-Yang It's my-." Then he sneezed again. I was annoyed as I tried sleeping but had no luck.

"*TISSUE SHUT THE FUCK UP*!!!" I heard Yang say as I heard Paintbrush yell.

"HOW ABOUT YOU!!" Slowly everyone got up and started yelling at each other... So I jumped out of my window. Again! And slept on the ground.

Prime Shimmer's POV
I looked at Fan sleeping on the ground. Half of my eye's turned pink, the other turned blue. I felt bad for him.. I got mad and left. I saw the other Shimmer's looking at me as one of them spoke.

"You ok Sir?" I nodded slowly as I turned around. All of the Shimmer's gasped. Some of them widened their eyes as well.

"Wha-."

"Your eye's Sir... Pink!" I looked them. I was very confused as I rubbed my stomach.

"What does pink and purple mean?!" I yelled as the smaller shimmers whimpered in fear. I calmed down quickly as I sighed. My eye's turned yellow. Yellow means I'm confused or stressed out. I'm both at this point! And it's not cause of not know what the colors mean... I just I DON'T KNOW!! I just feel stressed out...

"Sir?"

"Yes general?" I looked up at my female general as she spoke.

"Sir, you must not know but... Pink means your soulmate is nearby! And purple is.. um, when your have a strong attraction towards them... Or it could mean lust. But highly unlikely for you." My eyes widened as I thought for a minute.
'Fan, Fan, Fan... He is a very sweet guy! He's trustworthy. He's.. Very adorable and cute.' I blushed lightly as I slowly nodded.

"I never felt love but... I think I'm falling for Fan! He is just so kind! And funny." Then I saw every Shimmer heard me. I got super embarrassed...

"Don't tell Fan." I sounded defeated. The other Shimmer laughed. The general chuckled at it as well.

"We won't. But you have to tell him soon Sir." I nodded slowly. A few minutes later I pressed the button and Fan flew up. He immediately woke up as I stared at him.

"What am I doing back here?" Fan questioned as I shrugged.

"I like you here so your gonna sleep here! Also I didn't like you sleeping on the ground..."

Fan's POV (Again)
His eyes turned pink and blue as I stood up. I felt like we were locking eyes. Cause, we just stood there, staring at each other. We broke the line of sight.

"Sorry..." I apologized as Prime forgave me. We chatted for a bit. Till I slowly laid on him and blinked a few times. Prime's eyes turned pink and purple as he pressed his hand on my lips.

"Guess your sleepy huh?" I nodded slowly as he carried me to his room and laid me down. He laid next to me as he whispered.

"Good night you sweet angel..." My eyes slightly widened as I blushed lightly.

"Good night." I moved myself closer to him as I got myself on top of him. I nuzzled my head on his chest as he chuckled.

"Thank you for being here for me." I said to him as he placed his hand on mine.

"Your welcome and thank you for being my... friend..." I heard him act funny saying friend. But I fell asleep before I thought more about it.
The next day I woke up. I was still on Prime Shimmer. He opened his eyes and looked at me. His eyes turned light green.

"How was sleep?" He asked as I got off of him.

"I loved sleep! Well this is the first time I liked it for a while!" I admitted as Prime sat up. He looked at me as he placed his hand on my mouth again.

"What? Want to kiss me?" I covered my mouth as he looked at me with shock.

"Ok I know we just found out about what my sexuality is but... I already had feelings for you. I just didn't know what it was. My eyes have always turned pink when I was around you. I didn't know what it meant till... This morning. I was told that pink means, that my soulmate is nearby." My eyes widened at this. I bit my lip. I moved myself near his face. His eye's turned into a dark purple as I kissed his head.

"I was trying to find a place to kiss you.." I blushed lightly as his eyes turned light red. Then back to dark purple.

"What does dark purple mean?" I raised an eyebrow as Prime looked down again. Thinking. Then he called someone.

"GENERAL!!! What does dark purple mean."

"Dark purple... Oh lord, Sir. It means that you have very like... Lustful desires for the person." They talked a bit more then hanged up. His eyes were still the same. Then a random question came to my head.

"Do Shimmers have penises?!" I looked at him as he faced palmed. He nodded as I giggled.

"Sorr-." I was interrupted when Test Tube broke though the door.

"YOU ARE NOT RAPIN- Oh." Test Tube chuckled as he threw his gun out of the window.

"BETTER GET IT SOAP!" He yelled as I heard a faint voice. Then she rubbed his back.

"Now I need to say sorry for busting in..." I rolled my eyes as I forgave her.
We messed around in the ship as Prime just watched us.

"I feel like I'm babysitting a bunch of shitheads." He commented. When we had to go I walked up to him and kissed his head. And he pressed his hand on my lips.

"Love you!" His eyes turned light red as I smiled.

"Love you to, big guy." Test Tube was shocked the whole time.

"WOW! Your dating an alien!?" Test Tube was freaking out as I calmed her down. We got back to the hotel. I told Test Tube to shut her mouth about it. But when I sat down on the couch and starting watching a movie.

"WHAT!? FAN IS NOW DATING PRIME SHIMMER?!"
'For fuck sticks Test Tube, you had one job...' I said to myself. Then a few minutes later everyone was surrounding me with questions. I answered them all and they calmed down.
It has been a week since I started dating him. And my family are visiting in a week...

Part 15

Tissue's POV (Why not)
I sat in the cage the Yang made for me. He didn't like me sneezing all over the bed... I crossed my arms. I started sneezing all over the cage. Yang was asleep, Yin wasn't. He rolled himself over and looked at me. I smiled. But I started sneezing again...

"Sorry..." I said as I tried getting the tissues next to me. I couldn't though. Yin got off of the bed and grabbed them for me. And gave them to me. I smiled brightly. I grabbed the box of tissues.

"Thank yo-." Then I heard Yang wake up. He looked at me then punched Yin.
'Did he just punch himself?' I thought as they started arguing. Ever since I started sharing a room with Yin-Yang. I kinda became a bit soft... So I started tearing up. And, sneezing rapidly. They slowly stopped and stared at me.

"Yang, you made him cry.."

"ME?! YOU DID!"

"No I didn't!" They started back up arguing.. I didn't know what to do. So I sat there, listening to them argue...

"SHUT! UP! You both did! You made me cr-." Then I sneezed... I looked up and I saw something in their eyes. They looked upset! Then Yang closed his eyes and they were back to anger.

"So what? Your gonna cry again you bitch?!" He smiled evilly as I started up again. Cuddling the tissue box.

"Yang! Your such a dick... Be nice to him, for me!" Then all of the sudden Test Tube broke down the door and had a potion in her hand.

"You became my test dummy! So yeah drink this." She handed them a drink. Yang took control of the body, and eat the whole thing.

"NOT THE- Eh, whatever... You had this potion before. I just think I put something wrong in it." Then they shined brightly. I heard a weird noise. Then when it stopped. I saw Yin and Yang, separated! Test Tube left as Yin walked over to the cage and opened it.

"WHAT ARE YOU DOING?! I JUST CLEANED THIS ROOM!" I walked out of the cage. And walked out of the room. Then when everyone saw me they just stared. I got outside and sat on the ground. I sighed quietly. I felt like crying again. Then I saw Ray walking to the hotel. He looked over and saw me. He walked over and sat next to me.

"I'm Ray! OJ's father."

"I knew, just never talked to you.." I turned around and sneezed as his eye's widened. I looked back at him and sighed.

"Sorry it's an condition I have for some reason..." He nodded as he spoke.

"Well I had one to, I sneezed a lot! My best friend Kerry was always there for me. OJ was doing the game show while this was happening. But also... Two months later I got into a bad car accident. I broke both of my legs. And, I was the only survivor! I don't know why but I w-... Oh um, sorry for bringing the mood down..." I placed my hand on his shoulder. I rubbed it as he smiled at me.

"You must of been though a lot Ray." He nodded slowly as I turned back around again to sneeze. We just sat there for a bit. Then Ray told me he wanted to visit his son. I understood so he left me. I still had the box of tissues in my hand.

"Mini me." I said. I giggled as I heard footsteps behind me.

"To be honest Yin... He's kinda cute!" I blushed lightly as I turned around and saw them looking at me.

"Ah Yang, you called me cute!" I smiled brightly as Yang covered his face with his hand. Yin chuckled as Yang punched Yin.

"Fuck off." He said as Yin got up and walked towards me. He sat down next to me then Yang did the same. Just on the other side of me.

"Why aren't you destroying everything Yang? You did that the first time you two broke off of each other." I stood up and walked a few steps before sneezing. Yin laughed as Yang punched him again. I looked at them as Yang shrugged. Yin rubbed his own cheek.

"Your suck a dick." Yang rolled his eyes. Yin lightly punched Yang on the cheek.

"Is that all you can do you wimp?" Yang then punched him yet again.

"You fun to punch!" Yang laughed demoniacally. Yin shook his head as I chuckled.

"That's funny!" They looked at me as I jumped up and down. Cause why not. I stopped and I saw them blushing.

"***Cute***!" They both loud whispered.

"You guys suck at hiding the fact you like m-." I sneezed again. Then they started fighting. Not over me. Just something stupid...

"You placed the cherries in the freezer! They were supposed to put them in the fridge!"

"Well?! Now they won't be rotten when you touch them in like fifty years."

"He has a point Yin.. But they can still rot." I spoke. They looked at me as they slowly nodded. The rest of the day Yang pretty much beaten the dog shit out of Pickle for placing his hand on my shoulder. Pickle was gonna ask me to clean out the trash can! I got mad.. But I sneezed on him... Then he threw me back into the cage...
'This has been a weird day..' I said to myself then I sneezed again.

"You're gonna stay in that cage till you stop sneezing on people!" Yang said as I sat there. I gave him very adorable looks. I wanted out of the cage. He keep getting closer to the cage. Then he opened it. I got out

and sat on the bed. Then Yin came inside and smiled.

"Today is just great!" Yang and I nodded in agreement. Yin and Yang sat next to me. Then they turned into one person again.

"***W**e**l** **t**o**d**a**y** w**a**s **j**u**s**t **w**e**i**r**d**.**.**" Yin-Yang said as I nodded, eyes widened.

"I need to ask...-." I started saying as Yin-Yang looked at me.

"-Do you really like m-." I sneezed on them as I immediately grabbed a tissue box and cleaned them up.

"I'm so sorry Yin-Yang it's my condiShAWn!" I cleaned Yin-Yang up as Yang slapped me lightly.

*"**Y**o**u** **s**u**c**k.*" They said as I rolled my eyes.

Lightblub's POV
I started eating all of the oatmeal raisin cookies as Trophy came up to me.

"Hey loser! What are you doing?" Trophy sat next to me. He grabbed a cookie and ate it.

"Hey do you act so different towards Knife? Like maybe treat us nicer?" He rolled his eyes as he ate another cookie.

"I don't know Lightblub, to be honest I'm always like this... I treat my family and Knifey with love. And other people I just... Treat them differently I guess. And yes I LOVE oatmeal raisin cookies." He grabbed two and threw them in his mouth. I slowly nodded as Paintbrush came for behind and hugged me tightly.

"Hey my shine!" They kissed my cheek. Trophy chuckled awkwardly as we looked at him.

"What?" We both said as Trophy shook his head.

"Man, I never knew you guys were dating?!" Trophy's eyes widened as I chuckled.

"We have, since season two episode two. We just never said that we were together. Nor shown it." Trophy nodded slowly. Then all the sudden we heard Pickle and Knife yelling at each other.

"THATS NOT HOW YOU PLAY!" Pickle screamed. We heard the loudest slap, ever. We ran into the room. Trophy broke the fight. Trophy stared down at Pickle. He threw his fist up. I grabbed his arm as I screamed.

"LEAVE HIM ALONE!" I slapped him. Trophy, looked at me and slapped me back with his other hand. Paintbrush's face turned into rage as they jumped on Trophy. I let go of him as Knife grabbed Paintbrush and ripped them off on Trophy. Pickle had left the room at this point as Trophy picked up Knife.

"Sorry to piss you off. I believe in equal rights." He chuckled awkwardly as I rolled my eyes. Paintbrush gave him a death glare. Knife whined quietly as Trophy patted his back.

"Don't worry-." Then he whispered in Knife's ear. Whatever he told him, Knife smiled brightly and nodded. We got out of the room as Suitcase laughed creepy. Paintbrush left right away as us three were staring at her.

"What are you gonna do with Knife?!" Suitcase's eyes widened as Trophy raised an eyebrow.

"What do you mean? And and Knife are just gonna go to the park thats all." Suitcase looked at them, he squinted his eyes at Trophy as he sighed.

"I'm not your mother so go have fun!" Hey went off as I thought... *What the fuck was this day?*

Trophy's POV

"This place is very, quiet today ain't it?" Knife spoked as I nodded, we walked around the park as we held hands. Then we heard a child behind us as the kid tapped my Knife's arm.

"Hi." We looked at him as he hugged Knife tightly. Knife looked at me as he hugged him back.

"Dada!" Knife stepped back a bit as I raised an eyebrow.

"Um... I'm not your dad kid, sorry." Knife spoke softly towards them. The kid darted his eyes at Knife as he keep saying.

"But mommy said my father was a knife, and you are one!" We watched him as his mother ran up and grabbed his arm. She told him to play on the slides. She turned towards as as she started talking.

"I'm so, so sorry! He just wants to see his father, even thought I don't know who he is... But, how old?"

"Eighteen miss." She nodded.

"Yeah too young, also again super sorry for him."

"It's fine, now you go with your son." She smiled, waved to us then she walked to her child as I sat in my head. *Why do I feel like We'll see the son again.*

Emo's POV
"Well this is getting boring..." Snowball spoke as Blocky was on his lap.

"Why is it boring? Emo does have good taste in animes!" My boyfriend said as I blush lightly. Feeling happier then I was earlier. Lighter walked to me as he sat next to me. He nuzzle his head against mine as I blushed more.

"...Where is Oakley?" I hear my father running around the room as I shook my head. Oakley is something different, he is very quiet and nervous at times... And he does have tons of secrets, like one he is at their house right now.

"At his boyfriends house." Pen answered as I rolled my eyes. *'Little does Pen know his secret...'* I said to myself as I looked at my phone.

Emo: Hey... Oakley, your father is coming to your boyfriends house right now...

Oakley: ...WHAT?! Please distract him! I don't want him knowing I have four boyfriends!!!

Emo: Don't worry, I'll get Pen and Eraser to annoy the fuck out of him.

Oakley: Oh, ok then. Now I got to go they want my attention! See you later!

Emo: Have a good time!

I put my phone down as I walk to Pen and Eraser as I start talking to them.

Gray's POV
I was about to head out of the door, my coffee in my hand. But Pen and Eraser came up to me, and Pen asked...

"Dad, what would happen if me and Eraser adopted a child?" I spit out my coffee as I look at them in shock.

"You're both 18 and already want a child?! Don't be like me." I frown a bit as Pen just keep looking at me.

"But, it would be nice for you.-" I had to listen to Pen talk about this as Emo kept watching us. Like a murder looking for their next victim. After a few minutes I get tired of it as I walk out of the door, Pen and Eraser run after me as I'm already in my car as I drive off to see Oakley, I keep driving till I get into the parking lot of his house as I slowly walk to his door, the started snowing as I look up and I smile softly, I look back down as I knock on the door. No answer, I knock again. Again no answer as I groan a bit as I open the door.

"Oakley!" I look around as I see four others with Oakley as Oakley's face turns dark red as he stays still. I look at the other as they are just looking at each other with robot smiles.

"Hi... Son" I speak with some shock in my tone as he slowly looks up at me and he gets very nervous. I see it in his eyes as I sigh softly as I walk over and I sit next to him.

"Hey, I don't mind that you are Polyamorous, just don't get to many boyfriends!" I chuckle a bit as Oakley gets very embarrassed, causing him to look away from me as I pat his shoulder. His boyfriends look over at us as they all smile softly as one of them bonks the other on the head and they start play fighting. I sigh as I kiss Oakley's cheek to calm him down as he puts his head back up and looks at me.

"T-Thank you for not hating me d-dad..." He tears up a bit as I wrap my arms around him, kissing his cheek again trying to show him

some fatherly love as he looks up at me and smiles a bit.

"Why would I hate you for being yourself? Also your welcome son." He smiles more as I look over at his boyfriends and they are going crazy as my eyes widened at how wild they are.

"So I have to ask, how did you get with them?" I raise an eyebrow as I start thinking of some ways they might if gotten together.

"OH! Um... So, they were all fighting over me one day and I overheard it and when I came to stop it they started yelling about me being theirs. I had enough and I kissed them all and I explained to them about polyamory and at the time only two agreed while the other two took a while but they soon agreed and... Yeah, sounds like something from a movie hehe." He rubs his back awkwardly as I smile a bit more.

"Well, it's nice that you have people that took care of you, even when I was a shitty father in the past... I'm trying to be there for all of my kids now and I hope that I can prove myself to of changed!" Oakley looks at me as he hugs me back. I hum into the hug as we slowly let go and I pat his head, he smiled more as he chuckled a bit.

"Thanks for the head pats dad!"

"You're welcome. Anyways what are their names?" I tilt my head slightly. Oakley looked at them as he points to each one and saids their names.

"Metal Rod, Pyrite, Candle Light, and Wooden Stake. That's their names!" His eyes glow with happiness as I pat his head again.

"Well as long you're happy, I'll be happy as well kid." He slowly stands up and walks towards them as I see them all hugging each other, I couldn't help but to smile brightly. I stand up as well as I walk to the kitchen to cook something for them.

Part 17

Arex's POV
I was listening to music as the moon shined at me, I look up as I smile softly at the moon. I continue walking as I cough a bit due to some smoke getting into my lungs. I look around as I see someone smoking some very strong nicotine as I kneel down. I make contact to them as I squint my eyes a bit at the figure as it threw a boot at me, hitting my stomach as I groan a bit in pain.

"L-Leave me the fuck alone..." The figure spoke as I sigh softly. I sit next to them as they growl at me loudly. They calm down after a while as a piece of paper comes out of his pretty destroyed wallet as I pick it up and I look at it. It was a warn out picture of the figure and Lighter. I look at them as I see tears come down his eyes.

"Guess I got to tell you. My name is Tissues and Lighter was my best friend, then something happened between his parents and they divorced and then Lighter was so mean to me! He ended up burning me and that is why I look burnt. And the drugs are the reason why I look so... Slim." He tears up more as my eyes widened to know more about Lighter and his past as I slowly wrap my arms around him. He smiles softly as he put both of his hands on my arms as we stay like that for a few minutes. I let you as he lets go as well, I get a bit embarrassed as he chuckles a bit.

"I'm Arex! And I see, that must suck-"

"Yeah it does, he was my best friend and my only friend!"

"Do you want a new friend?" I look at him as he slowly turns his head, facing me as he nods his head slowly.

"J-Just don't leave me..." He sighs softly, I hug him again as he hugs me back. I smile softly, he patted my back as we let go.

"Well, I'm gonna go to my house now so... See you later buddy!" He stood up, shaking a bit as he waved at me, I waved back as he started walking home. I smile brightly as I start walking home, feeling good about myself.
A few hours later I get to my house as I walk into the room and Hawk and Blaze are sitting on my couch. And Jen is making something, I'm not gonna ask them what but I continue walking though my house as Oakley comes up to me, smiling brightly.

"Hello little bro, whats up?" I ask him as he boops me on my cheek, I chuckle as I do the same. He looks at me then pouts.

"What you did it to me!"

"Still, meanie!" He grumps as I pat his head and I head to my bedroom.

Gray's POV
"So... You're my dads boyfriend." Knife looked at me as I nodded slowly. He smiles brightly as Trophy kissed Knife's cheek.

"I'm happy for you both! Well anyways, how are you?" Knife asked as I smile a bit.

"I'm alright right now, how about you?"

"Trophy is doing great!! So I am as well!.." He smiles brightly as Shane walked into the room and winks at me. I blush lightly, giggling a bit. Shane walked towards me as he slowly wrapped his arms around my stomach. He hugs me tightly. I blush a bit more as I pout a bit.

"Why are you always like this?" I look at him as he smiled. He shrugged after as Trophy sigh softly. He looked at Knife as he stood up and walked to the kitchen to grab something to snack on. I stood up after a few minutes as well as I slowly walk to Shane, I hug him tightly, he chuckles as he pats my head.

"So clingy right now hm?" I nod slowly as he continued smiling.

"Aw dear, your so adorable when you are red." I get embarrassed as I look at him and I kiss his cheek softly.

Sorry this is short but... I am trying to do this but I'm losing motivation for writing but I'll try to update im sorry!

Part 18

.....After About A Year Of A Wait. I Felt Like I Needed To Update At Least One More Time.....

Pen's POV

"...Fuck." My hands, were shaking heavily as tears were coming down my eyes. It was a waterfall as I hated how I felt. I looked around my brother. Emo's old room. Old memories of my brother. The only brother that I knew about. He fucked up. But yet I wished I could of helped him. But I didn't want to risk my life. If they knew, that I knew.

I would never see Eraser, my father, anymore ever again. I felt my heart get heavy as I walk to a window in the room as I looked out of it. As I see Emo being carried away by the police. My tears slowly lessen. As I sigh softly. Then I turn around slowly as I see Eraser looking at me. Confusion, worry in his poor eyes.

"Pen... What happened? Why is your brother being carried out by police?" Eraser walked up to me as his eyes got a bit teary. Eraser cared about Emo a lot. Even though they weren't related. They had a very strong brotherly like bond. I couldn't tell Eraser but yet. I knew I had to.

"Emo got found out. Found out about his job and everything. He slipped up and got found out. And now he is going to prison for a long time. Maybe, death row. And his 'boyfriend' disappeared. Like a coward." I sounded cold, and stern as my hands turn into fists. My boyfriend's eyes turned into a dark blue as tears started pouring out of his eyes. His hands were on his face as he tried to calm down. But he couldn't.

"H-How! He was so careful. He's going to rot there!" He's body was shaking, his breathing started getting very heavy. It hurted me to see him like that. And I teared up again. For the fourth time, I walked closer to Eraser as i hug him softly. Eraser hugged back, tightly as I felt his tears on me. I didn't care. I just wanted Eraser to calm down. He is known to have panic attacks.

"Eraser. I. Don't know how." I gulped quietly, feeling a wave of guilt. As after a few minutes passed. He relaxed a bit, his body felt so light after all of the tears, I kissed his forehead. Eraser let go of me as his eyes go back to their original color.

"Do you know how he was found out? Pen?" Eraser's expression changed. His eyes instead of showing sorrow, his were stern. My eyes widened slowly as I felt targeted. Like I knew the answer. Which I did but I didn't want to admit.

"...I... No I do not. Maybe his boyfriend ratted him out? So he can run free." I felt like a disgrace. Lying to the love of my life. But I knew if I said the truth. He would no longer see me, a lover. Eraser's eyes looked. Mixed with emotions as he stepped back slowly. He seemed like he already knew I was lying. As his eyes looked at my hands. I was shaking heavily due to the lie as I sensed he already knew.

"Pen. You are lying to me. You know how he was caught. I can tell when you lie. Your own arms. They are shaking." His hands wrapped around my arms. Relaxing them as I felt caught. Sighing sharply, gulping right after.

"Eraser, I told the police everything. I felt guilty of hiding it! I didn't know what to do. You know me and secrets. I am horrible at them! I told them everything and showed them proof!" Tears are flowing though my eyes as the rush of regret immediately hit me. My eyes were to blurry to see his reaction. But I felt his hands move up to my shoulders. I felt his lips press against my left cheek as. I felt a sigh of relief. Knowing that he wasn't extremely mad.

"Honey. I would never be mad. But this. Will hurt for a long time. You know that. Your brother. Will find out what you have done. A-And if he gets out. Your first on his list..." His voice cracked. He and I knew the consequences to my betrayal to my brother. I knew my life

will be on the line once he is out. If he ever gets out. I wrapped my arms around Eraser. Shaking again, but in fear. As I felt my lover's arms around my waist.

"We should get out of here before your father shows up." I nodded. As I let go of the hug. And I put my hand to Eraser's. Holding his hand, and looking at him with a soft smile on my face.

"Yeah. Lets get out of here. Want me to buy you a beer?" Chuckling as I saw Eraser smile. It was a very small but loving smile.

"Perfect idea Pen." Eraser, then chuckled as well. Seeming in a better mood. Then start walking as Eraser followed. Our hands guled to each other. As we get to the front door as I open it. I get out of the house, walking to the car. Eraser closed the door behind me as he let go of my hand and run to the front door and got into the car.

"I wanted to drive" I groan in a playful matter. Eraser smirked in a evil but goofy matter.

"To bad. You lost driving privileges." His smile brighten the gloomy outside. I smile happily after a few seconds, I run to the passage door and I get in and I put my seatbelt on. As I lean to Eraser. Eraser looked at me as he noticed me getting closer to him. We kissed each other on the lips, and I pat his shoulder. I decide to look behind us and then I see a familar figure. Staring at us. As I immediately realize who it is.

"Eraser! Gas it! NOW!" My blood went cold as Eraser was confused as he look behind and his body froze. He turned around quickly as he put his foot down on the accelerator as we were going over a hundred. In a small neighborhood. As I couldn't unsee. What I saw. My stomach twisted with that picture in my mind.

"**He's after you**" Eraser's voice went stern but shaky. Terrified for my life. I saw my brother. Covered in blood. With body organs all over his slim body. And he had a knife in his hand. It looked homemade and... I can't remember the rest of that image. I was breathing very heavily as I looked behind us again and I relaxed ever so slightly. And then. Eraser starts to call his brother. As I look out the window, to past time and to forget what just happened.

"Pen. My family offered you to stay at my place." Eraser. Ended the call with his brother. I felt one of his hands holding my own. Tightly as it hurted a bit.

"Thank you. You're the world to me." Eraser looked at me for a second. And smiled gently. Then he looked at at the road and continued to drive. Now going to his family's place as I relax competely.

"I hope. I won't get killed." I mumbled softly as Eraser looked at me again for a spilt second. Then back to driving.

"If you do. I'll be right behind you." Erasers eyes get watery as he tries not to crash the car. As he pulls over to a gas station. He's body was shaking heavy. I felt horrible putting him into this situation. As he grabbed my waist and embraced me. I felt his hands travel though my back, rubbing it. His way to calm down. I let him. I embraced him back. I felt his heart racing.

"It's, ok Eraser. I'm here." I closed my eyes. Smiling brightly to be able to comfort Eraser. He let go of me as he rubbed his eyes. Both of us relaxed as he goes back to the wheel. And he starts driving to his parent's house again.

"I love you Pen." Eraser's voice sounded very serious but worried like. I looked out at the window again and then back to Eraser. I slowly press my lips onto his cheek. And I smile.

"I love you to."

....I hoped you enjoyed. I am so sorry for not updating I hope you have a good day....
